Re: Sewerage and Water Board of New Orleans
Third Modified Consent Decree – Civil Action No. 93-3212
Paragraph 57: Annual Report – Period Ending: December 31, 2017

Gentlemen:

Pursuant to Paragraph 57 of the Third Modified Consent Decree, the Sewerage and Water Board of New Orleans hereby submits the Annual Report for the period ending December 31, 2017. For 2017, the Board was in compliance with the provisions of the Decree, which this report is required to address.

This report contains a summary of compliance with and activities related to:

57a

- **Sewer Overflow Action Plan Activities/Unauthorized Discharge Tracking and Reporting Plan**

57b

- **Preventive Maintenance Plan Activities**

57c

- **Storm Sewer Monitoring Program Activities**

Members of the Board: ANDREW AMACKER • ROBIN BARNES • MARION BRACY • DR. TAMIKA DUPLESSIS • EILEEN GLEASON
RALPH W. JOHNSON • STACY HORN KOCH • MITCHELL J. LANDRIEU • JOSEPH PEYCHAUD • LEWIS STIRLING, III • LYNES R "POCO" SLOSS
"An Equal Opportunity Employer"

57d

- **One-Hundred Year Flood Protection**

57e

- **Population Changes and Projections**

59

- **Board and City Coordination**

100

- **Green Infrastructure Plan**

102

- **EPA/LDEQ Coordination**

These activities are described in Sections XII, XIII, XIV, XV, XVI, XIX, and XXVII of the Third Modified Consent Decree. For ready reference, the Executive Summary contains a synopsis of the Annual Report, including the Third Modified Consent Decree accomplishments that occurred during the year. Detailed activities described according to Third Modified Consent Decree section are summarized in Sections I through Section VII of the report.

The reports also include a number of appendices that describe work completed for calendar year 2016, as well as a description of cumulative work with respect to sewer main cleaning, sewer main inspection and sewer manhole inspection. Appendix 31 contains a listing of all accomplishments since the inception of the Consent Decree and all subsequent modifications.

For 2017, the Board did not make any changes to the Modified Sewer Overflow Action Plan.

For 2017, the Board made one non-significant change to the Modified Preventive Maintenance Plan by removing two force main isolation valves from our system.

I certify that the information contained in or accompanying this document is true, accurate, and complete. As to those identified portions of this document for which I cannot personally verify their truth and accuracy, I certify as the official having supervisory responsibility for the persons who, acting under my direct instructions, made the verification, that this is true, accurate, and complete.

Sincerely,

Bruce H Adams

Appendices 1 - 31	

SEWER OVERFLOW ACTION PLAN
UNAUTHORIZED DISCHARGE TRACKING AND REPORTING PLAN

- In 2017, from January 1 through December 31, there were a total of 235 unauthorized discharges from the gravity system mains, sewer force mains and sewer pumping stations. The Board complied with the response time goal set out in the Sewer Overflow Action Plan for these discharges.

  The Board has met the requirement to provide SOAP activities, including, but not limited to, the number of responses to unauthorized discharges, the response times for each discharge and actions taken to clean up and disinfect the discharge site.

- The Board is using the "Key to Measures Taken in Response to Unauthorized Discharges" in order to identify control measures taken by the Board, permitting the Board to accurately document field activities pertaining to the clean up and disinfection of discharge sites.

- The Board is not seeking further modifications of the Modified Sewer Overflow Action Plan.

- The Board did not make any non-significant changes to the Modified Sewer Overflow Action Plan in 2017.

The Board has met the requirement to include a certification that the Board is complying with any non-significant changes made to the Modified Sewer Overflow Action Plan.

PREVENTIVE MAINTENANCE PLAN

- The Board has complied with the requirements in the Preventive Maintenance Program for sanitary sewer collection system line inspections, sanitary sewer collection system line cleaning, sanitary sewer collection system manhole inspections, sanitary sewer collection system repairs, pump station preventive maintenance, air release valve inspection and maintenance, force main isolation valve exercise and inspection, force main alignment inspection, and cathodic protection system surveys.

Sanitary Sewer Collection System Line Inspection

Requirement: Inspect at least 9% of the system each year and 100% in 8 years.
Total System Amount: 6,028,401.00 feet (as of 12/31/2017)

- 2017 Completion: 1,085,829.70 feet
  Annual Percent Completion: 18%

  The Board has exceeded the requirement to inspect at least 9% of the system each year.

- Cumulative (3/10/17 to 12/31/2017) for Cycle Ending 3/9/2025 Compliance*: 809,062.00 feet (13%).

  The Board has exceeded the requirement to inspect 100% of the system in 8 years.

  * Per a letter to the EPA dated March 10, 2017, the Board began a new 8-year line inspection cycle from 3/10/2017 to 3/9/2025.

Sanitary Sewer Collection System Line Cleaning

Requirement: Clean at least 7% of the system each year and 100% in 10 years.
Total System Amount: 6,028,401.00 feet (as of 12/31/2017)

- 2017 Completion: 1,086,000.00 feet
  Annual Percent Completion: 18%

  The Board has exceeded the requirement to clean at least 7% of the system each year.

- Cumulative (10/22/2014 to 12/31/2017) for Cycle Ending 10/21/2024 Compliance: 2,815,446.50 feet (47%)

  The Board is on track to meet the requirement to clean 100% of the system in 10 years.

Sanitary Sewer Collection System Manhole Inspections

Requirement: Inspect at least 25% of all sewer manholes each year and 100% in 3.3 years.
Total System Amount: 22,862 manholes (as of 12/31/2017)

- 2017 Completion: 8,299 manholes
  Annual Percent Compliance: 36%

  The Board has exceeded the requirement to inspect at least 25% of all sewer manholes each year.

- Cumulative (11/25/2015 – 12/31/2017) for Cycle Ending 3/12/2019 Compliance: 17,624 manholes (77%)

  The Board is on track to meet the requirement to inspect 100% of sewer manholes in 3.3 years.

Sanitary Sewer Collection System Repairs

Requirement: Report all Sanitary System Repairs

- 2017 Completion: 1,622 reportable repairs (as of 12/31/2017)
  Percent Completion: 100%

  The Board has met the requirement to report all sanitary system repairs.

Sewage Pump Station Preventive Maintenance

Requirement: Complete 90% of all preventive maintenance tasks within two weeks of the scheduled date for completion.

- Total Required PM Activities: 4,942 work orders
  2017 Completion: 4,941 work orders
  Percent Completion: 99.98%

  The Board has exceeded the requirement to complete at least 90% of all preventive maintenance tasks within two weeks of the scheduled date of completion.

- Pursuant to Paragraph 57b of the Modified Consent Decree, the preventive maintenance reporting period for each pump station begins after it has been operating for a full quarter of the year.

- The Board is reporting preventive maintenance activities for sixty-six (66) stations in 2017. A table detailing the number of preventive maintenance activities per pump station can be found in Section II.

- The Board continues to perform regular maintenance on all units powered by commercial power. In addition, portable pumps that are under contract are maintained by the vendor.

Air Release Valve Inspection and Maintenance

Requirement: Perform semi-annual inspection and maintenance.
Total System Amount: 34 known air release valves

- **First Half, 2017**
  2017 Completion: 34 inspected
  Percent Completion: 100%

- **Second Half, 2017**
  2017 Completion: 34 inspected
  Percent Completion: 100%

  The Board has met the requirement to perform semi-annual inspection and maintenance on its air release valves.

Force Main Isolation Valve Exercise and Inspection

Requirement: Inspect and exercise annually, after the completion of the first inspection cycle, for which two years is allowed.
Total System Amount: 170 force main isolation valves as of December 31, 2017.

- 2017 Completion: 170 force main isolation valves inspected and exercised.
  Percent Completion: 100%

  The Board has met the requirement to inspect and exercise annually its force main isolation valves.

Force Main Alignment Inspections

Requirement: Visually inspect annually.
Total System Amount: Approximately 102 miles (as of 12/31/2017)

- 2017 Completion: Approximately 102 miles
  Percent Completion: 100%

  The Board has met the requirement to complete a visual force main alignment inspection.

Cathodic Protection System Surveys

Requirement: Conduct cathodic protection surveys annually.
Total Number of East Bank Test Sites: 22 (as of 12/31/2017)

- 2017 Completion: 22 sites surveyed
  Percent Completion: 100%

  The Board has met the requirement to annually conduct cathodic protection surveys.

Non-Significant Changes to the Modified Preventive Maintenance Program

- As per Paragraph 30 of the Third Modified Consent Decree, the Board is hereby submitting notice of a non-significant change to the Modified Preventive Maintenance Plan. The Board disabled two (2) unneeded force main isolation valves due to a section of flow being diverted to gravity sewer.

STORM SEWER MONITORING PLAN

2017:

- Phase I of the Storm Sewer Monitoring Program was completed on March 8, 2000. On January 19, 2001, a tabulation of sampling for Phase I was submitted to the EPA as required.

- Phase II of the Storm Sewer Monitoring Program will commence within 180 days of completion of the Remedial Measures Action Plan (RMAP) for all sewerage basins that are within the drainage system pumping station basins that are required to be sampled although the original completion dates will be changed.

- The Board has met the requirement to report its Storm Sewer Monitoring Plan activities.

ONE HUNDRED YEAR FLOOD PROTECTION

Work Accomplished:

- Through Sewerage and Water Board Contract #3629, a 4-meg emergency generator for the East Bank plant was procured, manufactured, delivered and installed at a price of $2,759,559.00 in the new Generator Building. Through Contract #3681, the new generator building was constructed at a cost of $7,498,000. The fully functional generator was placed on-line in November 2012.

- The Board has met the requirement to provide a report on the progress of construction of facilities to protect the East Bank Plant from a one-hundred year flood.

- Through Contract #3661, the Board has completed the design phase and awarded a construction contract to raise the berm around East Bank Wastewater Treatment Plant in the amount of $26,426,437.15. The Berm project was completed in 2015.

POPULATION CHANGES AND REVISED POPULATION PROJECTIONS

2017 Work Accomplished

- The population data is within the acceptable range of earlier projections. Therefore, the model indicates there is no reason to reconsider capacity issues at this time.

- The Board has met the requirement to provide a report on any population changes and any revised population projections.

GREEN INFRASTRUCTURE

2017 Work Accomplished

- As required, the Board submitted its Green Infrastructure Plan on April 24, 2014 to the EPA.

- A request for proposals was issued in January 2014 and all proposals due back to the Board by March 2014 for consideration.

- As noted in the Board's Green Infrastructure Plan, the Board has identified and selected projects that embody the principles of living with water, implemented projects that comply with green infrastructure design criteria, developed partnerships to implement a regional approach to green infrastructure, developed community outreach programs to provide education on green infrastructure practices, and included performance measurements, including monitoring of water quality, to help evaluate the siting and selection of future proposed green infrastructure projects.

- In the first quarter of 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The green roof at the SWB downtown administration building is 90% installed. The Aurora Rain Garden Project at the Aurora Sewer Pump Station has been installed.

- The Board has initiated several special projects to assist with Green Infrastructure site prioritization and project development. These projects will help determine where the funding for 2017 is spent. The Board has funded a detailed soil sampling and analysis project to study the soils in Orleans parish and the surface and subsurface infiltration rates and retention capacity in order to determine the suitability of the soils for Green Infrastructure projects. The soils sampling and analysis is complete and the final report is currently in draft form. The data will be used in GIS for site prioritization. The Board has also funded the development and implementation of a Green Infrastructure Toolkit to include standard details of Green Infrastructure installations and a stormwater calculator customized for Orleans Parish. The toolkit is 90% complete. Furthermore, the Board has funded an Adaptation Support Tool (AST) to be used for project planning and development to determine through GIS which types of Green Infrastructure measures will be suitable for specific sites and project areas around the city. The AST development is complete and ready for implementation. All the above mentioned tools are to be used together to plan future Green Infrastructure projects.

- In the second and third quarters of 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The green roof construction is complete at the SWB downtown administration building with several high profile outreach events taking place at the location.

- The soils sampling and analysis project is complete and we have received the final report and are currently reviewing. The data will be used in GIS for site prioritization and design. The Green Infrastructure toolkit is 90% complete. The Board has utilized the Adaptation Support Tool (AST) and the Climate Smart Cities Tool at several neighborhood workshops and internal project planning workshops.

- In the fourth Quarter 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The Board closed the Louisiana Urban Stormwater Coalition Education Program project and worked toward closing the Florida Ave Corridor Learning Trail.

- By the end of the fourth Quarter 2017, the construction periods were completed for all of the open physical Green Infrastructure project to-date. Maintenance phases are underway for Rabouin International High School GI Lab, the SWB Downtown St. Joseph Street Administration Building Green Roof, Aurora Rain Gardens, and the Water Effectiveness in Broadmoor projects.

- The Board has also continued providing educational outreach to the community and schools about green infrastructure though contracts with grantees as well as through an in-house staff outreach and education program currently in development. A listing of the Board's efforts in providing educational outreach to the community and schools about Green Infrastructure can be found in Appendix 30.

- A table detailing green infrastructure projects can be found as Appendix 30.

EPA/LDEQ COORDINATION (RMAP/MS4 PERMIT)

2017 Work Accomplished

- On January 12, 2017, the MS4 Co-Permittee / Orleans Parish Water Quality Task Force held a monthly meeting. The Sewerage and Water Board Environmental Affairs staff in attendance included: Scott Finney, Brad Klamer, Anita Williams, Ed Schneider, and Jennifer Roberts while two SWB engineers Marlon Carrio and Kyle Breaux joined as well. This meeting was hosted by The Port of New Orleans at the 1350 Port of New Orleans Place.

- On January 28, 2017, Environmental Staff Muhammad Yungai participated in and provided environmental best practice to citizens participating in a tour of the Lafitte Greenway and Drainage Pump Station (DPS) #2. This event was organized by the Friends of Lafitte Greenway, The Greater Treme Consortium, & the Water Wise Team and supported by the Network for Economic Opportunity and the Sewerage and Water Board of New Orleans.

- On February 1, 2017, Environmental Outreach staff Anita Williams and Jennifer Roberts visited McDonogh 35 High School to provide a Water Quality lesson to the Senior Microbiology class.

- On February 4, 2017, Environmental Affairs staff Bridget Tydor and Anita Williams participated in a community outreach fair hosted by the City of New Orleans Office of Resilience and Sustainability held at Arthur Ashe Charter School.

- On February 8, 2017, Sewerage and Water Board Environmental staff co-hosted a Federal Grant Workshop along with leaders from the Urban Waters Partnership. The grant workshop was led by EPA Program Officer, Adele Cardenas and supported by USDA-NRCS Water Resources Coordinator Alton James, Jr.

- On February 9, 2017, Environmental Staff members Ann Wilson, Scott Finney, Bridget Tydor, Brad Klamer and Jennifer Roberts met with Tyler Antrup, the City's newly appointed Urban Waters Manager to discuss City-SWBNO coordination.

- On February 9, 2017, the MS4 Co-Permittee/Orleans Parish Water Quality Task Force meeting was hosted by Sewerage and Water Board of New Orleans, Environmental Department and was held at the City of New Orleans Mosquito, Termite, and Rodent Control Board.

- February 13, 2017, SWBNO Green Infrastructure Team, led by Brad Klamer, hosted a meeting of Engineers, Planners, and Stormwater Managers from various City and SWB departments to discuss existing and planned capital pro jects with the goal of determining areas of GI need.

- On February 15, 2017, Jennifer Roberts participated in the Mayor's Office of Resilience/Greater New Orleans Foundation Sponsored Art + Resilience Summit.

- On February 15, 2017, Ann Wilson and Bridget Tydor asked for feedback on a Recycling Reboot Wednesday during the monthly Manager's Meeting. Recycling is collected Tuesdays and Thursdays at St. Joseph and Central Yard.

- On February 16, 2017, Sewerage and Water Board Staff staff, including Stormwater Manager, Scott Finney, attended the Southeast Section Water-Wastewater Collection Operators Training Course in Jefferson Parish.

- On February 24, 2017, Environmental Affairs Department staff, Anita Williams and Eddy Schneider, marked 15 storm drains in the vicinity of the St. Joseph office in order to remind food vendors operating during the Mardi Gras festivities to dispose of grease and food waste properly.

- On March 3, 2017, Lisa Martin, Brad Klamer and Jennifer Roberts participated in the City Resilience and Office of Sustainability led Gentilly Resilience District Engagement Strategy Workshop.

- On March 4, 2017, Jennifer Roberts participated in the Public Lab Stormwater Workshop, supported in part by a Sewerage and Water Board EPA Environmental Education sub-grant.

- On March 8, 2017, Jennifer Roberts, along with City Park's Meg Adams with support from Danielle Duhe, a local landscape architect, led a Green Infrastructure mobile workshop through City Park. Bridget Tydor developed and organized this workshop with the goal of showcase Green Infrastructure in City Park as part of the American Planning Association Metro Chapter Meeting.

- On March 9, 2017, Sewerage and Water Board Environmental represented the Board at the Youth Force NOLA Career Expo which took place on Thursday at the Xavier University Convocation Center.

- On March 9, 2017, the MS4 Co-Permittee / Orleans Parish Water Quality Task Force met from 2:00-4:00pm. This meeting was hosted by the City of New Orleans and was held at the Mosquito Control Training Room.

- On March 14, 2017, Sewerage and Water Board Environmental's Pretreatment Team, including Water Berard and Oliver Greenidge visited a restaurant that was experiencing frequent sewer backups, especially during rain events.

- On March 15, 2017, Environmental Affairs team members Walter Berard and Olivier Greenidge spoke to Local Contractors about Fats, Oils and Grease (F.O.G.) Best Management Practices and discussed the new F.O.G Ordinance. Also present was Mr. Jay Arnold of the SWB Plumbing Department.

- On March 17, 2017, Anita Williams and Jennifer Roberts led more than 100 fourth grade students through a nonpoint source pollution prevention lesson during their field trip to City Park.

- On March 17, 2017, Anita Williams and Jennifer Roberts taught pollution prevention to the garden club class at Renew Sci Tech Academy (820 Jackson Avenue, New Orleans). 23 Students engaged with an enviroscape model, learning about environmental best practices by role playing.

- On March 18, 2017, Anita Williams and Jennifer Roberts represented the Sewerage and Water Board of New Orleans at Audubon Institute's Earth Fest.

- On March 18, 2017, Sewerage and Water Board staff including Bridget Tydor and Brad Klamer (Environmental Affairs) and Lisa Martin and Brenda Thornton (Community and Intergovernmental Relations) joined members of the Hollygrove neighborhood, Tulane City Center, The Greater New Orleans Foundation, and the Carrollton-Hollygrove CDC on Saturday at "Fun Times on the Greenline".

- On March 18 and 19, 2017, Sewerage and Water Board's Green Infrastructure site was featured on the local radio station, WRBH 88.3FM.

- On March 22, 2017, Sewerage and Water Board staff participated in the American Water Works Association Chapter Meeting.

- On March 22, 2017, Jennifer Roberts met with staff from the EPA Gulf of Mexico Program, including: Gerald Binninger, Danny Wiegand, Jeanne Allen, and LaKeshia Robertson, to discuss collaborative opportunities to work together.

- On March 22, 2017, Ann Wilson and Bridget Tydor attended and presented at the Louisiana Water Environment Association Conference in Baton Rouge.

- On March 22, 2017, Ann Wilson and Scott Finney accepted the Environmental Leadership Program Award from the Louisiana Department of Environmental Quality. The award was given to the Sewerage and Water Board for our commitment to grow water literacy.

- On March 23, 2017, Jennifer Roberts and Bridget Tydor worked with service learners from The International High School of Washington D.C.

- On March 23, 2017, Bridget Tydor and Superintendent Joseph Becker participated as guest speakers on a Walk + Learn which included a visit to the Broad Street Rain Garden & SWBNO Drainage Pump Station #3. This event was open to the public and co-hosted by Propeller and the Greater New Orleans Water Collaborative.

- On March 24, 2017, Jennifer Roberts and Bridget Tydor met with student leaders and teachers at the Louisiana Environmental Education Commission and U.S. Green Building Council's Green Schools Youth Summit.

- On April 7, 2017, the Sewerage and Water Board hosted Teachers and local leaders to the Carrollton Water Plant for the wrap up of *GNO World of Work: Water Week*, in partnership with GNO Inc. and the greater New Orleans Foundation.

- On April 13, 2017, Senior City Planner Ms. Bridget Tydor provided Land Management Solution Framework (LAMA) training to employees who utilize this system to track inspections, review permit applications, and share data with city employees to ensure data sharing is consistent and complete.

- On April 19, 2017, SWBNO Chief of Environmental Affairs Ann Wilson spoke at the Louisiana Restaurant Association's breakfast meeting. Mrs. Wilson, along with Environmental Enforcement Technician II, Mr. Walter Berard discussed the importance of properly disposing of Fats Oils and Grease. (FOG) They also gave instructions to the food establishment owners and managers on how to complete the Board's Grease Trap/Interceptor Discharge Permit application.

- On April 19, 2017, Brad Klamer facilitated the Urban Waters Partnership Meeting this quarterly meeting. Participants included staff from federal (EPA, USGS,) State (LDAF), nonprofit (Lake Pontchartrain Basin Foundation, Groundwork, Gulf Restoration Network).

- On April 20, 2017, fourth grade students from the International School of Louisiana and their teachers visited the UNO Coastal Education and Research Facility to learn about watersheds and water science as part of the Youth Environmental Science Stewards (YESS) Program Field Trip. Jennifer Roberts led a Water Quality Lesson.

- On April 21, 2017, SWBNO Environmental Affairs staffers Anita Williams and Bridget Tydor along with Office of Sustainability's Samuel Gordon spent their Earth Day unclogging storm drains with Port of New Orleans staff. The partners removed debris and trash around the storm drains along Almonaster Boulevard.

- On April 21, 2017, Jennifer Roberts and Bridget Tydor helped to plan and implement the Xavier University Earth Day Celebration. Guests from Xavier Environmental Health and Safety/Risk Management, the Water Collaborative of Greater New Orleans, and GNO, Inc. participated in an environmental careers panel discussion.

- On April 22, 2017, SWBNO Environmental team members Bridget Tydor and Brad Klamer joined project partners Gaea Construction and Groundwork New Orleans in welcoming Aurora Gardens residents to the Aurora Rain Gardens at the corner of Westchester Street and Carlisle Court in Algiers.

- On April 22, 2017, Anita Williams and Jennifer Roberts visited the Children's Museum for The Children's Museum Earth Day Extravaganza. SWBNO staff engaged children and their parents in a discovery of what is a watershed. The event also included guests from LSU Ag Center, Energy Wise, and many others.

- The Wyland Foundation sponsored Ambassador Brennan on the Headwaters of the Mississippi to the Delta tour. Ambassador Brennan arrived in New Orleans on April 24, 2017 where he spoke to the seventh grade class at Lusher Charter Students. The students learned the basics about Watersheds and Watershed health.

- On April 24, 2017, Muhammad Yungai attended the Art and Water Panel discussion sponsored by the Antenna Gallery and Propeller. This community workshop and discussion explored how artists engage with questions around water, sea level rise, and environmental degradation, and how new mediums can expand perspectives on our interaction with the natural world.

- On April 25 and April 27, 2017, Environmental Affairs staff Anita Williams and Jennifer Roberts worked with Lusher Charter School's seventh grade students and their teachers to provide an overview of the local drainage system, our unique watershed and pollution prevention strategies.

- On May 2, 2017, Executive Director Cedric S. Grant was joined by SWBNO Environmental Affairs Chief Ann Wilson and US Water Alliance CEO Radhika Fox to tape the opening video for the June 2017 One Water Summit Conference.

- On May 3, 2017, Environmental staffer Anita Williams supported Operations team members Conard James and General Superintendent Mr. Joe Becker offered Audubon Charter School's fourth graders a tour drainage pump station #6.

- From May 6 to May 9, 2017, Bridget Tydor and Brad Klamer attended the American Planning Association National Planning Conference in New York City and were part of the local and state delegation of over 50 representatives. The pair attended many sessions on water and planning and were able to offer feedback and ask questions concerning water management in New Orleans.

- On May 8, 2017, Jennifer Roberts led Renew Charter McDonogh City Park Academy fifth and sixth grade science classes through Water Cycle lessons. Students began the lesson with a water cycle word search and then moved into the outdoor garden space on campus to take a Journey through the water cycle making a beaded bracelet as they take the journey of a rain drop through many spaces (cloud, ocean, glacier, etc.) and states of matter (gas, liquid, solid).

- On May 9, 2017, Jennifer Roberts attended the Louisiana Environmental Education Commissioners meeting in Baton Rouge at the Louisiana Department of Wildlife and Fisheries Office.

- On May 11, 2017, Jennifer Roberts provided a tour of the City Park Festival Ground Wetland to the students participating in the LA Green Corps Workforce Training Program. The wetland was utilized to foster discussion and discuss lessons learned about maintenance schedules and what it takes to not only construct Green Infrastructure (GI) but also to keep it functioning properly. Students also discussed pollution prevention and the benefits of distributed GI across the City. Many of these students were interested in job opportunities in GI and at the Water Board

- On May 12, 2017, Jennifer Roberts and Anita Williams worked with McDonogh City Park Academy fifth and sixth graders to teach them about stormwater best management practices and pollution prevention.

- On May 13, 2017, Bridget Tydor represented SWBNO at the City of New Orleans Household Hazardous Waste Day. This is an annual event coordinated by the Department of Sanitation. This year 787 motorized vehicles and one bicycle visited the drop site on Elysian Fields.

- On May 13, 2017, SWBNO Environmental Affairs team spent Saturday teaching youngsters all about living with water. Jennifer Roberts and Brad Klamer used the Enviroscape to teach youngsters about stormwater best-management practices and pollution-prevention and invited children to make bracelets that reminded them of their Journey through the Water Cycle.

- On May 16 & 17, 2017, the Gulf of Mexico Climate and Resilience Communities of Practice Workshop was held in Covington, Louisiana.

- On May 18, 2017, Colorado Students toured New Orleans Water Management system. Jennifer Roberts and Bridget Tydor worked with the Port of New Orleans Environmental Team to host a group of visiting eighth grade students from Aurora, Colorado.

- On May 19, 2017, Jennifer Roberts worked with sixth grade science teacher, Ms. Lisa Swenson, to support student projects. Sixth grade students tested water quality in Bayou St. John monthly, over a period of 8 months and identified a water quality or habitat concern based on observations and data collections. Students then designed a mock solution for this problem and presented it to a panel of experts.

- On May 19, 2017 a Joint New Orleans/Jefferson Parish Stormwater/MS4 Task Force meeting was held at Room 405, Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Jefferson, LA. The meeting was attended by Jeff Dauzat of the Louisiana Department of Environmental Quality and more than 20 representatives of the various co-permittees and community partners.

- On May 23, 2017, SWBNO partnered with the City of New Orleans Office of Resilience and Sustainability & the Trust for Public Land to support the unveiling of the new Climate-Smart Cities GIS Decision-Support Tool in a series of workshops attended by SWB leadership and staff.

- On May 23, 2017, Anita Williams and Jennifer Roberts worked in collaboration with Dinah Maygarden at the UNO Center for Education and Research Facility (CERF) to teach third graders from Arthur Ashe Charter Schools about our Watersheds and Pollution Prevention.

- On May 24, 2017, Brad Klamer participated in a workshop for the Treme/7th Ward Stormwater Management and Beautification Resident Project for the 1200 Block of Kerlerec St. The overall goal of the project is to create a more beautiful streetscape for the community and to mitigate local nuisance flooding by collecting a combined 1.25 inches of stormwater per rain event.

- On May 24, 2017, Jennifer Roberts was guest speaker at the "Can Ya Dig it?" Community Forestry Workshop at the New Orleans City Park Botanical Gardens classroom. Jennifer discussed Water Management in New Orleans with the participants and shared an overview of the SWBNO drainage system and MS4 management with all in attendance.

- On May 24, 2017, the Arts Council of New Orleans launched By You Drainscapes a regional community initiative, with support from SWB and the Port of New Orleans, to create storm drain murals at five locations throughout New Orleans. The initiative's mission is to engage and coordinate citizens, artists, students, governmental agencies, businesses and community organizations in the Greater New Orleans Region to enhance public awareness, and water literacy through highly visible storm drain murals.

- On June 3, 2017, Jennifer Roberts participated in the Water Words Festival of Environmental Literacy at the Main Branch of the New Orleans Public Library. The event included using the Escape Stormwater Pollution Prevention Model. Jennifer Roberts read water themed books to young children in the Children's Resources Room. This event kicked off a summer long working on water reading and engagement series that Jennifer Roberts and Anita Williams will co-lead at all branches of the New Orleans Public Library.

- On June 5, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets, stickers, and outreach brochures to share with community members at the Keller Library.

- On June 8, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets, stickers, and outreach brochures to share with community members at the Nix Branch of the New Orleans Public Library.

- On June 8, 2017 The Sewerage and Water Board Environmental Staff led the Orleans Parish Stormwater/MS4 Task Force meeting, which was hosted at the New Orleans Mosquito, Rodent, and Termite Control Board. Bridget Tydor led the group through the exploration of the Trust for Public Land Climate Smart Cities planning tool. In addition, Scott Finney led the group discussed the Total Maximum Daily Load program,

Stormwater monitoring and sampling, the upcoming Concrete and Construction Best Practices Training to be held June 13, 2017 and the upcoming Sewer Science Teacher Training Program.

- On June 12, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the Latter Branch of the New Orleans Public Library. SWBNO Environmental Affair staffers discussed where the rain goes and how it has to either soak in to the soil and plants or get pumped into the system through the drains, pipes, pumps and canals.

- On June 13, 2017, Anita Williams and Bridget Tydor met with 16 children at the mid-City Branch of the Library. They brought water themed books, coloring sheets and stickers to share with young community members.

- On June 13, 2017, the Environmental Affairs Department is engaged in an ongoing Public Education campaign for the purpose of keeping the City of New Orleans clean and environmentally friendly.

- On June 13, 2017, the Southeast Louisiana Clean Fuel Partnership recognized SWBNO as one of the 2016 Clean Fleet Leaders at the Regional Planning Commission meeting. Ms. Valerie Rivers accepted a Clean Fleet Award on behalf of SWBNO.

- On June 14, 2017, Brad Klamer met with the Tulane University Ecology and Society course at the edge of the London Canal to discuss the SWBNO drainage system and the integrated approach to stormwater management.

- On June 14, 2017, Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the Alvar Branch of the New Orleans Public Library.

- On June 16, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the East New Orleans Branch of the New Orleans Public Library. Outreach at the library will continue through the month of July.

- On June 20-23, 2017, Jennifer Roberts worked as an expert instructor for the Mississippi River Delta Institute, a three-day professional development workshop for third through eighth grade teachers.

- On June 22, 2017, SWBNO Deputy Director-Chief Financial Officer Bob Miller along with Stormwater-MS4 Manager Scott Finney participated in a workshop entitled “Opportunities for Contractors in Stormwater Management.”

- On June 26, 2017, the Urban Waters Partnership held a workshop at the Tulane University Tidewater Building. The meeting was attended by local and regional partners including representatives from numerous local nonprofits, EPA Region 6, Region 2 (Gulf of Mexico Program) and Urban Waters Partner group members from San Antonio.

- On June 27, 2017, SWBNO and the US Water Alliance co-sponsored the One Water Summit in New Orleans.

- On June 29, 2017, Senior City Planner, Jennifer Roberts worked with Dinah Maygarden of the University of New Orleans and Thomas Gresham of the Louisiana Environmental Education Commission to lead a Watershed Workshop for educators.

- On July 13, 2017 from 2-4pm Scott Finney and Jennifer Roberts attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The meeting was hosted by the Flood Protection Authority East (also known as the Orleans Levee District), a co-permittee in the EPA issued Municipal Separate Storm Sewer System (MS4) Permit.

- On August 10, 2017, the Orleans Parish water quality/MS4 Task force meeting was held Thursday, August 10, 2017 at the New Orleans Mosquito Termite and Rodent Control Board. This meeting was attended by more than 30 individuals, LDEQ was not represented at the meeting.

- On September 14, 2017 Bridget Tydor, Edward Schneider, and Scott Finney attended the September MS4/OPWQTF Meeting held at the New Orleans Mosquito Control Board Training Room.

- September 18-21, 2017, Anita Williams, Edward Schneider, and Scott Finney attended the US Environmental Protection Agency (EPA) Region 6 Stormwater Conference in San Antonio, Texas.

- On October 12, 2017, Muhammad Yungai attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The MS4 meeting coincided with an EPA Urban Waters meeting.

- On November 16, 2017, Scott Finney attended the Orleans Parish Stormwater/MS4 Task Force Meeting. Attendees represented SWBNO, Jefferson Parish, the City of New Orleans, the Port of New Orleans, and Dionne Magness of LDEQ.

- On December 14, 2017, Muhammad Yungai, Anita Williams, Edward Schneider, and Carson Gorecki attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The meeting was hosted by the Sewerage & Water Board of New Orleans (SWBNO) and held at the New Orleans Mosquito Termite and Rodent Control Board. There were ten attendees representing DOTD, the Port of New Orleans, Jefferson Parish, New Orleans Sanitation Department, LDEQ, and SWBNO. Dionne Magness represented LDEQ.

SEWERAGE & WATER BOARD OF NEW ORLEANS/ CITY OF NEW ORLEANS COORDINATION

2017 Work Accomplished

- On December 10, 2015, the City of New Orleans and the Sewerage and Water Board of New Orleans reached a settlement with Federal Emergency Management Agency (FEMA) for street and subsurface infrastructure repairs related to Hurricane Katrina in the total amount of approximately $2.4 Billion. This will allow for additional infrastructure projects that will be coordinated through the combined efforts of DPW and the Board.

- The City of New Orleans and the Sewerage and Water Board jointly developed an aggressive schedule for the expenditure of the $2.4 Billion to FEMA for their review and approval on March 30, 2016. This schedule has already been implemented and includes ongoing design for about 30 paving projects that will allow for significant construction in 2017, as well as the commencement of design on over 50 more projects that will allow for increased construction in 2018 and 2019 as we ramp up our efforts to perform repairs on assets damaged as a result of Hurricane Katrina.

- The City of New Orleans and Sewerage and Water Board of New Orleans continue to re-evaluate the design and construction schedules so that they align and meet imposed deadlines set forth in the 3rd Modified Consent Decree.

CONSENT DECREE ACCOMPLISHMENTS

2017 Work Accomplished

- Paragraph 41
  Notification of Contract Award and Estimated Milestones – Contract 30207/30208
  District: E
  Scheduled Date: 01/20/17
  Actual Date: 01/19/17

- Paragraph 41a
  25% Completion of Contract – Contract 30206

Section I
Sewer Overflow Action Plan

THIRD MODIFIED CONSENT DECREE SECTIONS XIII, XIV, XIX PARAGRAPHS 31, 35, 57a SEWER OVERFLOW ACTION PLAN UNAUTHORIZED DISCHARGE TRACKING AND REPORTING PLAN

Paragraph 57a: Requires the Board's annual report to include information on Sewer Overflow Action Plan (SOAP) activities (Modified Consent Decree Exhibit 4). These SOAP activities include, but are not limited to:

- Number of responses to unauthorized discharges
- Response times for each discharge
- Actions taken to clean up and disinfect the discharge site

<u>2017 Work Accomplished:</u>

- In 2017, from January 1 through December 31, there were a total of 235 unauthorized discharges from the gravity system mains, sewer force mains and sewer pumping stations. The Board complied with the response time goal set out in the Sewer Overflow Action Plan for these discharges.

Paragraph 31: Requires the Board to comply with the Sewer Overflow Action Plan in accordance with its procedures.

Paragraph 35: Requires the Board to comply with the Unauthorized Discharge Tracking and Reporting Plan in accordance with the schedule and procedures specified therein.

Because Paragraphs 31 and 35 are closely related, and information in the various appendix reports often overlaps between activities related to the Sewer Overflow Action Plan and the Unauthorized Discharge Tracking and Reporting Plan, this "Work Accomplished" section contains information on both plans.

<u>2017 Work Accomplished:</u>

- Appendix Tab 1 contains a report of the Board's 2017 SOAP activities with respect to unauthorized discharges from the gravity system mains, sewer manholes, sewer force mains, and sewer pump stations. These tables set out the street address, the date and time of the service request, the date and time the crew arrived at the discharge site, the response time and response goal, and whether the response goal was met. Response times exceeding the response goals are identified with an "N" in the Met Response Time Goal column. The report covers January 1 through December 31, 2017.

- In 2017, from January 1 through December 31, there were a total of 235 unauthorized discharges from the gravity system mains, sewer force mains and sewer pumping stations. The Board complied with the time goal set out in the Sewer Overflow Action Plan for these discharges.

- Appendix Tab 2 contains the "Key to Measures Taken in Response to Unauthorized Discharges." The Board uses codes from the key to identify control measures taken. These codes permit the Board to accurately document field activities pertaining to the cleanup and disinfection of discharge sites.

- The Sewerage and Water Board has complied with Sewer Overflow Action Plan and the Unauthorized Discharge Tracking and Reporting Plan since entry into the Modified Consent Decree.

- Gravity System Unauthorized Discharges:
  2017:
  - With respect to unauthorized discharges from the gravity system, the Board met all of its response time goals for 2017. See Appendix Tab 1.

  - The Board complied with the response time goal set out in the Sewer Overflow Action Plan for these discharges.

- Sewer Force Main Unauthorized Discharges:
  2017:
  - With respect to unauthorized discharges from the sewer force main system, the Board met all of its response time goals for 2017. See Appendix Tab 1.

  - The Board complied with the response time goal set out in the Sewer Overflow Action Plan for these discharges.

- Pump Station Unauthorized Discharges:
  2017:
  - With respect to unauthorized discharges from sewer pump stations, the Board met all of its response time goals for 2017. See Appendix Tab 1.

  - The Board complied with the response time goal set out in the Sewer Overflow Action Plan for these discharges.

Most of the unauthorized discharges experienced by the Board from the gravity system are caused by a choke in the line. The Board's primary goal in response to sanitary sewer overflows is to resolve the cause of the choke as quickly as possible and mitigate any effect of the overflow. In this regard, it is the customary practice of the Board to have a team at the problem site within the established response time goal of the SOAP to correct and remove the cause. The field team then determines whether any sewage can be recovered from the storm drainage system. In many cases, this is not feasible because the sewage has run off via a subterranean canal system and has co-mingled with the groundwater flow in the system.

The Board's ability to capture and reintroduce sewage to the proper system is usually specific to areas in New Orleans East and any area of the city with open drainage canals. Also, unless the cause of the problem is a broken pipe or some other situation that will dictate less than immediate resolution, it is not usually possible to collect the spilled sewage. The field team will always clean up any solid debris and flush the area of the overflow before leaving for the next job.

The Board is continuing its public education campaign with residents, restaurants, hotels and other commercial establishments in the City of New Orleans regarding how to properly dispose of kitchen grease and other debris to prevent clogging the sanitary sewerage system and causing overflows. This program also includes a one-on-one educational session with violators and suspected illegal dischargers. The Sewerage and Water Board provides a copy of the Water Environment Federation's informational brochure, Fat Free Sewers, to restaurants, hotels, and other establishments that have the potential to discharge grease into the sewerage collection system. A warning letter is issued to potential problem locations. A violation letter and monetary penalty is issued where proof of a violation is found. Fines are issued using the approved Enforcement Response Plan as a guide to allow escalation of penalties until problems are resolved.

Section II
Preventive Maintenance Program

THIRD MODIFIED CONSENT DECREE SECTIONS XII, XIX PARAGRAPHS 26, 57b PREVENTIVE MAINTENANCE PROGRAM

Paragraph 26: Requires the Board to comply with the Preventive Maintenance Program in accordance with the procedures and schedules therein.

Paragraph 57b: Requires the Board's annual report to include information on activities listed on the table "Preventive Maintenance-Quantifiable Measures" in the Preventive Maintenance Program (Modified Consent Decree Exhibit 3.) The report on preventive maintenance shall include the following information:

- Identification of specific pipe segments which were inspected, cleaned, repaired, or replaced
- Number and location of manhole inspections
- A summary of all force main preventive maintenance activities for the year
- Other non-RMAP related activity
- Where available, maps documenting information provided in the report
- A certification of compliance with the Preventive Maintenance Program (including pump station preventive maintenance)
- Any non-significant changes made to the Modified Preventive Maintenance Program

- The Board has complied with the requirements in the Preventive Maintenance Program for sanitary sewer collection system line inspections, sanitary sewer collection system line cleaning, sanitary sewer collection system manhole inspections, sanitary sewer collection system repairs, pump station preventive maintenance, air release valve inspection and maintenance, force main isolation valve exercise and inspection, force main alignment inspection, and cathodic protection system surveys.

- A map documenting the Board's preventive maintenance for 2017 is shown in Appendix 3.

- Some preventive maintenance activities may have been performed by Board or contractors on the same sewer appurtenances. Actual quantities credited have been adjusted to eliminate any duplication.

Section II
Preventive Maintenance Program

GRAVITY SYSTEM

1. **Sewer Main Line Inspection and Cleaning:**
   Inspect at least 9% of the system each year and 100% in 8 years.
   Clean at least 7% of the system each year and 100% in 10 years.

   Inspection

   - In 2017, the Board exceeded the Preventive Maintenance requirements for the Sanitary Sewer Collection System line inspection.

   - Total footage contained in the East Bank Sanitary Sewer Collection System Line Inventory is 6,028,401.00 feet as of December 31, 2017.

   - The Board completed inspection on 1,038,286.70 feet of sewer system during 2017. A detailed report of sewer main lines inspected by the Board for 2017 is included at Appendix Tab 4 and does not include duplicates.

   - The Board's contractors completed inspection on 25,309.00 feet of sewer system during 2017. A detailed report of sewer main lines inspected by the Board's contractors for 2017 is included at Appendix Tab 5 and does not include duplicates.

   - The Board and its contractors completed inspection on 1,085,829.70 feet (18%) of sewer system during 2017. A detailed report of sewer main lines inspected by the Board and its contractors for 2017 is included at Appendix Tab 6 and does not include duplicates.

   - Appendix Tab 7 contains a listing of all line segments inspected during 2017, and includes duplicates.

   - The Board has exceeded the requirement to inspect at least 9% of the system each year.

   - The Board has inspected a cumulative total of 809,062.00 feet (13%) from March 10, 2017 to December 31, 2017, for the current cycle from March 10, 2017 through March 9, 2025. This cumulative total does not include duplicates. Appendix Tab 8 contains a listing of all sewer mains inspected, through December 31, 2017, for this cycle.

   - Per a letter to the EPA dated March 10, 2017, the Board began a new 10-year line cleaning cycle from 3/10/2017 to 3/9/2025.

   - The Board has exceeded the requirement to inspect 100% of the system in 8 years.

- The Board and its contractors inspected a cumulative total of 51,180.00 feet in 2017 utilizing CCTV. A detailed report containing sewer mains inspected utilizing CCTV is included as Appendix Tab 9.

- The Board and its contractors inspected a cumulative total of 1,038,633.70 feet utilizing smoke testing. A detailed report containing sewer mains inspected utilizing smoke testing is included as Appendix Tab 10.

Cleaning:

- Total footage contained in the East Bank Sanitary Sewer Collection System Line Inventory is 6,028,401.00 feet as of December 31, 2017.

- The Board cleaned 1,056,027.00 feet of the sewer system during 2017. A detailed report of sewer main line segments cleaned by the Board during 2017 is provided at Appendix Tab 11 and does not include duplicates.

- The Board's contractors cleaned 51,180.00 feet of the sewer system during 2017. A detailed report of sewer main line segments cleaned by the Board's contractors during 2017 is provided at Appendix Tab 12 and does not include duplicates.

- The Board and its contractors cleaned 1,086,000.00 feet (18%) of the sewer system during 2017. A detailed report of sewer main line segments cleaned by the Board and its' contractors during 2017 is provided at Appendix Tab 13 and does not include duplicates.

- Appendix Tab 14 contains a listing of all line segments cleaned during 2017, and includes duplicates.

- The Board has exceeded the requirement to clean at least 7% of the system each year.

- The Board has cleaned a cumulative total of 2,815,446.50 feet (47%) from October 22, 2014 to October 21, 2024. Appendix Tab 15 contains a listing of all sewer mains cleaned during this cycle and does not include duplicates.

- The Board is on track to meet the requirement to inspect 100% of the system in 10 years.

2. <u>Sewer Manhole Inspections:</u>

Inspect at least 25% of all sewer manholes each year and 100% in 3.3 years.

- As of December 31, 2017, the Board's East Bank Sanitary Sewer System contained 22,862 manholes.

- The Board inspected 8,299 manholes during 2017. A detailed report of manholes inspected by the Board is included at Appendix Tab 16.

- The Board's contractors inspected 0 manholes during 2017. A detailed report of manholes inspected by the Board's contractors is included at Appendix Tab 17.

- The Board and its contractors inspected 8,299 (36%) manholes during 2017. A detailed report of manholes inspected by the Board and its contractors in 2017 is included at Appendix Tab 18 and does not include duplicates.

- A report of sewer manholes inspected by the Board and its contractors during 2017, including duplicates, is included at Appendix Tab 19.

- The Board has exceeded the requirement to inspect at least 25% of all sewer manholes each year.

- The Board has inspected a cumulative total of 17,624 (77%) manholes from November 25, 2015 through March 12, 2019. This cumulative total does not include duplicates. Appendix Tab 20 contains a listing of all sewer manholes inspected for the current cycle.

- The Board is on track to meet the requirement to inspect 100% of all sewer manholes in 3.3 years.

3. <u>Sewer Collection System Repairs</u>:
Report all sanitary sewer system repairs.

- The Board completed 138 repairs in 2017. A detailed report of the Board's sewer collection system repairs is provided at Appendix Tab 21.

- The Board's contractors completed 1,484 repairs in 2017. A detailed report of sewer collection system repairs by Board contractors is provided at Appendix Tab 22.

- The Board and its contractors completed 1,622 repairs in 2017. A detailed report of all sewer collection system repairs is provided at Appendix Tab 23.

- The Board has met the requirement to report all sanitary sewer system repairs.

<u>OPERATIONS AND FACILITIES MAINTENANCE DEPARTMENTS</u>

1. **<u>Pump Station Preventive Maintenance</u>**
Complete 90% of all preventive maintenance tasks within two weeks of the schedule date for completion.

- The total number of scheduled East Bank Operations and Facilities Maintenance Departments work orders for 2017 was 4,942.

- Pursuant to Paragraph 57b of the Modified Consent Decree, the preventive maintenance reporting period for each pump station begins after it has been operating for a full quarter of the year.

- The Board is reporting preventive maintenance activities for sixty-six (66) stations in 2017. The following Table indicates the scheduled and completed tasks for the Board's fully operational stations.

TOTAL PREVENTIVE MAINTENANCE WORK ORDERS	ACTIVITY CODE	NUMBER OF STATIONS	FREQUENCY FOR THE YEAR	SCHEDULED WORK ORDERS	COMPLETED WORK ORDERS	PERCENT COMPLETE

TOTAL Isolation Valves Identified for EB:		170	Valves designated as"*-SFM-V*SS" and in service
TOTAL Exercised	EXVAL	170	
PERCENT COMPLETED FOR 2017		100%	

- Operations and Facility Maintenance personnel completed 4,941 sewage pumping station preventive maintenance tasks (99.98%) through December 31, 2017. This work was completed within two weeks of the scheduled date for accomplishment. A detailed report of the preventive maintenance activities completed is located in Appendix 24.

- The Board has exceeded the requirement to complete 90% of all preventive maintenance tasks within two weeks of the scheduled date for completion.

- The Board continues to perform regular maintenance on all units powered by commercial power. In addition, portable pumps that are under contract are maintained by the vendor.

PRESSURE SYSTEM

1. **Air Release Valves:**
   Perform semi-annual inspection and maintenance.

   - The Networks Department performed the semi-annual inspections and maintenance of the Board's sewer force main air release valves in 2017.
   - During the first half of 2017, the Board inspected and maintained 34 (100%) known air release valves.
   - During the second half of 2017, the Board inspected and maintained 34 (100%) known air release valves.
   - A detailed report of the semi-annual inspections of air release valves is provided at Appendix Tab 25.
   - The Board has met the requirement to perform semi-annual inspections and maintenance on all known air release valves.
   - The Networks Department maintains a program to identify accessible corporation cocks in the sanitary sewer force main system and to investigate these sites for possible use as air release valves and inclusion in the program.

2. **Force Main Isolation Valves Exercise and Inspection:**
   Inspect and exercise annually, after the completion of the first inspection cycle, for which two years is allowed.

   - The Board inspected and exercised 170 (100%) of the 170 identified sewer force main isolation valves during 2017. A detailed report of the inspections of force main isolation valves is contained at Appendix Tab 26.
   - The Board has met the requirement to inspect and exercise annually its Force Main Isolation Valves.

3. **Force Main Alignment:**
   Visually inspect annually.

   - The Networks Department has completed the annual alignment inspection of one hundred percent (100%) of the 102 miles of sewer force mains for 2017. A detailed report of the Force Main Alignment inspection is provided at Appendix 27.

- The Board has met the requirement to complete a visual force main alignment inspection for 2017.

4. <u>Cathodic Protection</u>:
Conduct cathodic protection surveys annually.

- The Board conducted 22 (100%) cathodic protection surveys during 2017. A detailed report of the twenty-two (22) cathodic protection inspections is provided at Appendix Tab 28.

- The Board has met the requirement to perform cathodic protection surveys annually.

- The Board's Cathodic Protection system consists of sacrificial anodes attached to the structure to be protected or impressed current systems. The anode method is used on short sections of coated steel sewer force mains. For longer sections of steel sewer force mains, the positive impressed current system employs a rectifier assembly in a deep well ground bed. At present, Board operates two (2) east bank sacrificial anode systems and twenty (20) impressed current systems. The impressed current systems also contain sacrificial anode protection to prevent corrosion if the rectifier fails. All twenty-two (22) systems are surveyed annually.

<u>Non-Significant Changes to the Modified Preventive Maintenance Program</u>

- As per Paragraph 30 of the Third Modified Consent Decree, the Board is hereby submitting notice of a non-significant change to the Modified Preventive Maintenance Plan. The Board disabled two (2) unneeded force main isolation valves due to a section of flow being diverted to gravity sewer.

Section III
Storm Sewer Monitoring Plan

THIRD MODIFIED CONSENT DECREE SECTIONS XVI, XIX PARAGRAPHS 47–53, 57c STORM SEWER MONITORING PLAN

Paragraph 47: States the purpose of the Storm Sewer Monitoring Program is to provide baseline data on the presence of sewage indicating pollutants in the East Bank drainage system before and after RMAP implementation in each drainage basin. Stormwater sampling will be done to accomplish this purpose.

Work Accomplished in a previous year:

- As a requirement of the Consent Decree, the Board established a Storm Sewer Monitoring Program (SSMP) designed by EPA to provide baseline data on the presence of sewage in the East Bank drainage system. In April 1998, the Sewerage and Water Board hired ADS Environmental Services (ADS) to conduct stormwater sampling pursuant to the regimen dictated by the Consent Decree.

Paragraph 48: Sets the schedule for Phase I and Phase II sampling. Phase I sampling will commence within 180 days of lodging. Six (6) quarterly samples will be taken within a two (2) year period. Phase II sampling will be initiated following remediation of sewerage basins, which are contained within the drainage basins, which are tributary to each drainage pumping station. Commencing no later than 180 days after completion of remediation of all sewage basin(s) within an individual drainage pump station basin, the Board shall collection six (6) quarterly samples over eight quarters. The program will continue until Remedial Measures Action Plans have been completed in all sewage basins and final drainage basin sampling is complete.

Work Accomplished in a previous year:

- Samples for the third quarter of the program (first quarter, 1999) were collected on January 9, 1999. They were collected between six and twelve hours following the specified rainfall event.

- Samples for the fourth quarter of the program (second quarter, 1999) were collected on May 11, 1999. They were collected between six and twelve hours following the specified rainfall event.

- Samples for the fifth quarter of the program (third quarter, 1999) were collected on July 20, August 9, and September 2, 1999. They were collected between six and twelve hours following the specified rainfall event.

- Samples for the sixth quarter of the program (fourth quarter, 1999) were collected on October 8, 1999. They were collected between six and twelve hours following the specified rainfall event.

- An additional sample collected on March 8, 2000, at DPS 10 to satisfy sixth quarter sampling requirement. This station was resampled due to an unusable sample collected in the first quarter of the program at this Drainage Pumping Station.

Paragraph 49: Requires the Board to conduct all sampling and analysis in accordance with EPA approved methods under 40 C.F.R. Part 136, or where EPA methods do not exist, in accordance with the then current edition of the Standard Methods for the Examination of Water and Wastewater.

Work Accomplished in a previous year:

- The Board conducted all sampling and analyses in accordance with EPA approved methods under 40 C.F.R. Part 136, except for caffeine. In the case of caffeine, no appropriate EPA approved method existed. These samples were analyzed by the HPLC method according to the latest edition of Standard Methods for the Examination of Water and Wastewater.

Paragraph 50: Requires the Board to analyze samples for fecal coliform, fecal streptococcus, enterococcus, and caffeine.

Work Accomplished in a previous year:

- A sample was taken at DPS 10 on March 8, 2000 to replace a sample taken at this location in the first quarter of the program. The previous sample was discarded because it did not meet requirements set forth in the Consent Decree. The sample was analyzed for fecal coliform, fecal streptococcus, enterococcus and caffeine. The sample satisfies the sixth quarter program sample for this location.

Paragraph 51: Requires the Board to monitor Station 3, Station 6, Station 7, Station 10, Station 14, and Station 16.

Work Accomplished in a previous year:

- The Board has previously taken samples at each Drainage Pumping Station listed in Paragraph 51. A sample to replace the voided sample for the first program quarter at Station 10 was collected on March 8, 2000.

Paragraph 52: Requires Phase I sampling to begin within 180 days of lodging of the original Consent Decree and lists the following requirements for samples:

a) Water samples must be taken on the discharge side of each drainage station which pumps into Lake Pontchartrain at location(s) that yield samples representative of the water pumped during the period.

Work Accomplished in a previous year:

- The Board commenced the SSMP sampling program when it contracted with ADS in April 1998. ADS began the preliminary work necessary to collect and analyze samples at the required locations. This included sample site inspections, laboratory coordination and technician training. Sampling began on September 1, 1998, within 180 days of lodging of the Consent Decree.

b) Samples shall be taken between 6 and 12 hours following a rainfall event of approximately 1" or more over a 24 hour period measured at each drainage pump station.

Work Accomplished in a previous year:

- All samples were collected in accordance with the requirements of this section.

c) Sample volume, preservation and holding times will be in accordance with 40 C.F.R. 136 or, where EPA methods do not exist, in accordance with the then current edition of Standard Methods for the Examination of Water and Wastewater. Samples shall be taken in each of six (6) calendar quarters for a period of two years (8 quarters) unless the specified rainfall event does not occur in the quarter. If the specified rainfall event does not occur during said quarter, the Board is exempt from performing said testing.

Work Accomplished in a previous year:

- All sample volumes, preservation and holding times were in accordance with 40 CFR Part 136 with the noted exception of caffeine. A sample was collected at DPS 10 to satisfy the sixth quarter sample required for this location, as required by the Consent Decree.

d) The results of Phase I sampling shall be tabulated and submitted to EPA within 90 days following the end of the two year (8 quarter) period. The report shall include the date and location of all sampling, the associated 24-hour rainfall measurement, and the results of the analyses for the specified parameters.

Work Accomplished in a previous year:

- The results of the Phase I sampling were tabulated and submitted to EPA within 90 days of the end of the two-year monitoring period, on January 19, 2001, as required by the Consent Decree.

Paragraph 53: Requires Phase II sampling to begin within 180 days following the completion of the RMAP for all sewage basin(s) within a drainage system pumping station basin. This shall continue until all pump stations identified in Paragraph 51 are sampled. Phase II sampling requirements are listed as follows:

a) The Board shall take water samples on the discharge side of the drainage pump station(s), which are used to drain the geographic area of the sewage basin, remediated in the RMAP. Sample locations will be the same as those used in Phase I.

b) The sampling protocol in Paragraph 52b and 52c shall be used.

c) The results of each Phase II sampling period shall be submitted to EPA within 90 days after completion of the two year (8 quarter) sampling period for the affected drainage basin. The report shall include identification of the drainage pump station sampled and the sewage basins associated with that station, the date and location of all sampling, the associated 24 hour rainfall measurement and the results of analyses for the specified parameter.

Work to be Accomplished:

- Phase II of the Storm Sewer Monitoring Program will commence within 180 days of completion of the Remedial Measures Action Plan (RMAP) for all sewerage basins that are within the drainage system pumping station basins that are required to be sampled although the original completion dates will be changed.

Paragraph 57c: Requires the Board to report its Storm Sewer Monitoring Plan activities in the annual report in accordance with Section XVI.

Work Accomplished:

- The Board has met the requirement to report its Storm Sewer Monitoring Plan activities.

Section IV
One-Hundred Year Flood Protection

THIRD MODIFIED CONSENT DECREE SECTION XIX PARAGRAPH 57d

Paragraph 57d: Requires the Board to annually report on the progress of construction of facilities to protect the East Bank Treatment Plan from a one-hundred (100) year flood.

Work Accomplished:

- Through Sewerage and Water Board Contract #3629, a 4-meg emergency generator for the East Bank plant was procured, manufactured, delivered and installed at a price of $2,759,559.00 in the new Generator Building. Through Contract #3681, the new generator building was constructed at a cost of $7,498,000. The fully functional generator was placed on-line in November 2012.

- The Board has met the requirement to provide a report on the progress of construction of facilities to protect the East Bank Plant from a one-hundred year flood.

- Through Contract #3661, the Board has completed the design phase and awarded a construction contract to raise the berm around East Bank Wastewater Treatment Plant in the amount of $26,426,437.15. The Berm project was completed in 2015.

Section V
Population Changes and Projections

THIRD MODIFIED CONSENT DECREE SECTIONS XV, XIX PARAGRAPHS 45 & 57e

Paragraph 57e: Requires the Board to annually report any population changes and any revised population projections as provided in Paragraph 45 of the Modified Consent Decree.

2017 Work Accomplished

- Appendix Tab 29 reflects updated population and projections. These numbers are within the acceptable range of earlier projections. Therefore, the model indicates there is no reason to reconsider capacity issues at this time.

Section VI
Green Infrastructure

THIRD MODIFIED CONSENT DECREE SECTION XXVII PARAGRAPH 100

Paragraph 100: Requires the Board to annually report a summary of any green infrastructure activities undertaken pursuant to paragraph 100 and the plan developed under it.

2017 Work Accomplished

- As required, the Board submitted its Green Infrastructure Plan on April 24, 2014 to the EPA.

- A request for proposals was issued in January 2014 and all proposals due back to the Board by March 2014 for consideration.

- As noted in the Board's Green Infrastructure Plan, the Board has identified and selected projects that embody the principles of living with water, implemented projects that comply with green infrastructure design criteria, developed partnerships to implement a regional approach to green infrastructure, developed community outreach programs to provide education on green infrastructure practices, and included performance measurements, including monitoring of water quality, to help evaluate the siting and selection of future proposed green infrastructure projects.

- In the first quarter of 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The green roof at the SWB downtown administration building is 90% installed. The Aurora Rain Garden Project at the Aurora Sewer Pump Station has been installed.

- The Board has initiated several special projects to assist with Green Infrastructure site prioritization and project development. These projects will help determine where the funding for 2017 is spent. The Board has funded a detailed soil sampling and analysis project to study the soils in Orleans parish and the surface and subsurface infiltration rates and retention capacity in order to determine the suitability of the soils for Green Infrastructure projects. The soils sampling and analysis is complete and the final report is currently in draft form. The data will be used in GIS for site prioritization. The Board has also funded the development and implementation of a Green Infrastructure Toolkit to include standard details of Green Infrastructure installations and a stormwater calculator customized for Orleans Parish. The toolkit is 90% complete. Furthermore, the Board has funded an Adaptation Support Tool (AST) to be used for project planning and development to determine through GIS which types of Green Infrastructure measures will be suitable for specific sites and project areas around the city. The AST development is complete and ready for implementation. All the above mentioned tools are to be used together to plan future Green Infrastructure projects.

- In the second and third quarters of 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The green roof construction is complete at the SWB downtown administration building with several high profile outreach events taking place at the location.

- The soils sampling and analysis project is complete and we have received the final report and are currently reviewing. The data will be used in GIS for site prioritization and design. The Green Infrastructure toolkit is 90% complete. The Board has utilized the Adaptation Support Tool (AST) and the Climate Smart Cities Tool at several neighborhood workshops and internal project planning workshops.

- In the fourth Quarter 2017, work has continued on GI projects. SWB participated in community outreach to introduce the new projects and give updates on ongoing and past projects. The Board closed the Louisiana Urban Stormwater Coalition Education Program project and worked toward closing the Florida Ave Corridor Learning Trail.

- By the end of the fourth Quarter 2017, the construction periods were completed for all of the open physical Green Infrastructure project to-date. Maintenance phases are underway for Rabouin International High School GI Lab, the SWB Downtown St. Joseph Street Administration Building Green Roof, Aurora Rain Gardens, and the Water Effectiveness in Broadmoor projects.

- The Board has also continued providing educational outreach to the community and schools about green infrastructure though contracts with grantees as well as through an in-house staff outreach and education program currently in development. A listing of the Board's efforts in providing educational outreach to the community and schools about Green Infrastructure can be found in Appendix 30.

- A table detailing green infrastructure projects can be found as Appendix 30.

Section VII
EPA/LDEQ Coordination

THIRD MODIFIED CONSENT DECREE SECTION XXVII PARAGRAPH 102 EPA/LDEQ COORDINATION (RMAP/MS4 PERMIT)

Paragraph 102. This paragraph requires the Board to consult with EPA and LDEQ to ensure, to the maximum extent possible, that the RMAP work is consistent with the requirements of the Total Maximum Daily Loads (TMDLs) for Fecal Coliform Bacteria and Dissolved Oxygen for Selected Subsegments in the Lake Pontchartrain Basin and the Board's MS4 (Municipal Separate Storm Sewer System) discharge permit. The Board will include a summary and description of any such discussions in its Quarterly and Annual Reports.

<u>2017 Work Accomplished</u>

- On January 12, 2017, the MS4 Co-Permittee / Orleans Parish Water Quality Task Force held a monthly meeting. The Sewerage and Water Board Environmental Affairs staff in attendance included: Scott Finney, Brad Klamer, Anita Williams, Ed Schneider, and Jennifer Roberts while two SWB engineers Marlon Carrio and Kyle Breaux joined as well. This meeting was hosted by The Port of New Orleans at the 1350 Port of New Orleans Place. Amelia Pellegrin and Emily Federer of the Port presented to the group details revolving around the Port MS4 Program, including: Discharge permits, Spill reporting, By-You Drainscapes, and their Earth Day 2017. Scott Finney discussed drafting the 2016 Annual Report. Jeff Dauzat from the Louisiana Department of Environmental Quality was present. The group was given a tour of the Port facility from the Mississippi River on the Coast Guard fireboat.

- On January 28, 2017, Environmental Staff Muhammad Yungai participated in and provided environmental best practice to citizens participating in a tour of the Lafitte Greenway and Drainage Pump Station (DPS) #2. This event was organized by the Friends of Lafitte Greenway, The Greater Treme Consortium, & the Water Wise Team and supported by the Network for Economic Opportunity and the Sewerage and Water Board of New Orleans. At 10:30 am a group of 20-25 interested citizens toured a section of the Lafitte Greenway at Basin Street and Lafitte listening to presentations focused on stormwater management and the history of the greenway. At 11:10 am the group arrived at DPS #2 where they were greeted by DPS personnel and SWB General Superintendent, Joe Becker, who entertained questions from the group and offered a tour of the pump station. Joe highlighted how much water the combined power of the 24 DPSs could discharge and explained how green infrastructure installations could mitigate the volume of water needed to be discharged and how that was beneficial to all.

- On February 1, 2017, Environmental Outreach staff Anita Williams and Jennifer Roberts visited McDonogh 35 High School to provide a Water Quality lesson to the Senior Microbiology class. The classroom teacher, Mr. Johnson provided students with a checklist of information that they needed to know including research about the Clean Water Act, pollutants of concern, and the history and potential jobs at the Sewerage and

Water Board. This class hopes to take a post-Mardi Gras field trip to a Board facility to learn more about water management in New Orleans.

- On February 4, 2017, Environmental Affairs staff Bridget Tydor and Anita Williams participated in a community outreach fair hosted by the City of New Orleans Office of Resilience and Sustainability held at Arthur Ashe Charter School. This outreach opportunity allowed community members interested in the Gentilly Resilience District an opportunity to tour the site of future Green Infrastructure and to engage with planners, project managers, and city leaders responsible for implementation of the City's Resilience strategy.

- On February 8, 2017, Sewerage and Water Board Environmental staff co-hosted a Federal Grant Workshop along with leaders from the Urban Waters Partnership. The grant workshop was led by EPA Program Officer, Adele Cardenas and supported by USDA-NRCS Water Resources Coordinator Alton James, Jr. This workshop was held at the City of New Orleans Mosquito, Termite, and Rodent Control Board Training Room and covered all aspects of federal grant writing from identifying opportunities to collaborating with partners to create a successful program.

- On February 9, 2017, Environmental Staff members Ann Wilson, Scott Finney, Bridget Tydor, Brad Klamer and Jennifer Roberts met with Tyler Antrup, the City's newly appointed Urban Waters Manager to discuss City-SWBNO coordination. Shared initiatives discussed included: Green Infrastructure, Stormwater Management, Construction Site Inspection, and Outreach and Education.

- On February 9, 2017, the MS4 Co-Permittee/Orleans Parish Water Quality Task Force meeting was hosted by Sewerage and Water Board of New Orleans, Environmental Department and was held at the City of New Orleans Mosquito, Termite, and Rodent Control Board. The meeting allowed SWB staff to review the MS4 Annual Report requirements and formatting in detail and to troubleshoot questions in advance of the report due date with all MS4 co-permitees. In addition Scott Finney, SWBNO Storm Water Manager, shared sampling data and discussed monitoring to meet TMDL and NPDES requirements.

- February 13, 2017, SWBNO Green Infrastructure Team, led by Brad Klamer, hosted a meeting of Engineers, Planners, and Stormwater Managers from various City and SWB departments to discuss existing and planned capital pro jects with the goal of determining areas of GI need.

- On February 15, 2017, Jennifer Roberts participated in the Mayor's Office of Resilience/Greater New Orleans Foundation Sponsored Art + Resilience Summit. The summit brought together invited city officials, nonprofit organizations, artist, and community leaders all in effort to discuss the state of the arts and culture sector in New Orleans and to explore its relationship to the city's resilience strategy. Jennifer

participated in the Infrastructure planning group and worked to identify opportunities & roadblocks to integrate art and environmental literacy into infrastructure projects.

- On February 15, 2017, Ann Wilson and Bridget Tydor asked for feedback on a Recycling Reboot Wednesday during the monthly Manager's Meeting. Recycling is collected Tuesdays and Thursdays at St. Joseph and Central Yard. By rebooting the recycling program, SWB can reduce the amount of waste that is sent to the landfill and increase the amount of recycled plastic, paper, cardboard, aluminum, and steel. Environmental would like to work with each department to meet their recycling needs and offer incentives for recycling superstars! The Recycling Reboot will begin the week of March 6, 2017.

- On February 16, 2017, Sewerage and Water Board Staff staff, including Stormwater Manager, Scott Finney, attended the Southeast Section Water-Wastewater Collection Operators Training Course in Jefferson Parish. At this meeting the West bank (Algiers) Water Plant won the drinking water award, while Veolia won the Waste Water visual award, both will advance to the regional contest.

- On February 24, 2017, Environmental Affairs Department staff, Anita Williams and Eddy Schneider, marked 15 storm drains in the vicinity of the St. Joseph office in order to remind food vendors operating during the Mardi Gras festivities to dispose of grease and food waste properly.

- On March 3, 2017, Lisa Martin, Brad Klamer and Jennifer Roberts participated in the City Resilience and Office of Sustainability led Gentilly Resilience District Engagement Strategy Workshop. This workshop provided opportunities to review the City's community engagement commitment to HUD in the NDRC application, discussion of best practices on communicating resilience effectively to the public and media, and identification of project outreach timelines.

- On March 4, 2017, Jennifer Roberts participated in the Public Lab Stormwater Workshop, supported in part by a Sewerage and Water Board EPA Environmental Education sub-grant. Jennifer provided context and a drainage system map to participating community members. This workshop focused on stormwater management, flooding and opportunities in the St. Roch neighborhood.

- On March 8, 2017, Jennifer Roberts, along with City Park's Meg Adams with support from Danielle Duhe, a local landscape architect, led a Green Infrastructure mobile workshop through City Park. Bridget Tydor developed and organized this workshop with the goal of showcase Green Infrastructure in City Park as part of the American Planning Association Metro Chapter Meeting. Participants toured green infrastructure throughout New Orleans City Park by bicycle. Jennifer discussed ways that green infrastructure helps to manage stormwater and improve water quality.

- On March 9, 2017, Sewerage and Water Board Environmental represented the Board at the Youth Force NOLA Career Expo which took place on Thursday at the Xavier University Convocation Center. This event which was attended by over 2,000 sophomore and junior level High School students from 16 Orleans Parish High Schools. This inaugural event was an opportunity for Sewerage and Water Board to promote the many and varied career opportunities available at SWBNO and to share stormwater 101 information with young people.

- On March 9, 2017, the MS4 Co-Permittee / Orleans Parish Water Quality Task Force met from 2:00-4:00pm. This meeting was hosted by the City of New Orleans and was held at the Mosquito Control Training Room. At the meeting the group discussed City of New Orleans MS4 Program Updates, Green Infrastructure Projects, HMGP Projects, GRD Projects, The City Hall Bioswale Project, the Construction Site Inspection Program, the Adopt-a-Catch Basin App and TMDLs. Sewerage and Water Board staff in attendance included: Scott Finney, Brad Klamer, Anita Williams, and Ed Schneider. There were no representatives present from LDEQ.

- On March 14, 2017, Sewerage and Water Board Environmental's Pretreatment Team, including Water Berard and Oliver Greenidge visited a restaurant that was experiencing frequent sewer backups, especially during rain events. Once on site Environmental worked with both Plumbing and Networks to address multiple problems on site. The team inspected the house connection and the grease trap in order to determine the extent of the problem. Networks assisted with line clean out and plumbing will follow up to ensure that installed fixtures are properly permitted.

- On March 15, 2017, Environmental Affairs team members Walter Berard and Olivier Greenidge spoke to Local Contractors about Fats, Oils and Grease (F.O.G.) Best Management Practices and discussed the new F.O.G Ordinance. Also present was Mr. Jay Arnold of the SWB Plumbing Department. For more information about the Pretreatment Program and specifically the F.O.G. Ordinance, please visit our website at: http://www.swbno.org/environmental_pretreatment.asp.

- On March 17, 2017, Anita Williams and Jennifer Roberts led more than 100 fourth grade students through a nonpoint source pollution prevention lesson during their field trip to City Park. This event was organized and sponsored by the LSU AgCenter Youth Wetland Program. Other entities that brought educational opportunities to these students included: City Park, LSU Ag, and the National Park Service.

- On March 17, 2017, Anita Williams and Jennifer Roberts taught pollution prevention to the garden club class at Renew Sci Tech Academy (820 Jackson Avenue, New Orleans). 23 Students engaged with an enviroscape model, learning about environmental best practices by role playing.

- On March 18, 2017, Anita Williams and Jennifer Roberts represented the Sewerage and Water Board of New Orleans at Audubon Institute's Earth Fest. Anita and Jennifer used the Enviroscape to discuss pollution prevention and water quality with visitors to the Zoo. Anita and Jennifer shared outreach brochures including Think Before You Flush and Stormwater 101. Visitors were also asked to name the River that provides New Orleans with drinking water.

- On March 18, 2017, Sewerage and Water Board staff including Bridget Tydor and Brad Klamer (Environmental Affairs) and Lisa Martin and Brenda Thornton (Community and Intergovernmental Relations) joined members of the Hollygrove neighborhood, Tulane City Center, The Greater New Orleans Foundation, and the Carrollton-Hollygrove CDC on Saturday at "Fun Times on the Greenline". Cedric Grant did the honors and cut the ribbon officially proclaiming the site open to the public. The Greenline is located at 3300 Monroe Street (at the corner of Monroe and Forshey Streets). It is shaded by a bright yellow canopy that conveys water to two rain gardens, along a rain bench, and to a cistern that stores water for future use. The event was kicked off by the Lafayette Academy marching band and DJ Wiz.

- On March 18 and 19, 2017, Sewerage and Water Board's Green Infrastructure site was featured on the local radio station, WRBH 88.3FM. Radio host Meg Adams read a narrative about the history of the Hollygrove Greenline and recent news of its development on the show, Going Green, on Saturday morning. This show was recorded on Saturday morning and replayed at 4:30pm Saturday and Sunday.

- On March 22, 2017, Sewerage and Water Board staff participated in the American Water Works Association Chapter Meeting. Jennifer Roberts facilitated a morning panel. This session, entitled "Celebrating World Water Day: A Look at Water Sustainability across the Globe" focused on sustainable water management from an international perspective. The conference spanned three days and was held in the French Quarter, at the Hotel Monteleone.

- On March 22, 2017, Jennifer Roberts met with staff from the EPA Gulf of Mexico Program, including: Gerald Binninger, Danny Wiegand, Jeanne Allen, and LaKeshia Robertson, to discuss collaborative opportunities to work together. We identified synergy between our work plans in goals focused on Water Quality, Resilience, and Community Outreach with Environmental Best Practices.

- On March 22, 2017, Ann Wilson and Bridget Tydor attended and presented at the Louisiana Water Environment Association Conference in Baton Rouge. Bridget presented "New Green Roof on 1936 St. Joseph Street Downtown Administration Building," While Ann presented "Fighting Fats, Oils and Grease (FOG) in the French Quarter."

- On March 22, 2017, Ann Wilson and Scott Finney accepted the Environmental Leadership Program Award from the Louisiana Department of Environmental Quality. The award was given to the Sewerage and Water Board for our commitment to grow water literacy. Our team began delivering on that commitment when they hired staff tasked with developing a robust education and engagement program. "SWBNO believes that environmental issues cannot be addressed without participation from the public. The Board wants our customers to be informed so together we can work together to protect the environment in which we live, work and play. It was an honor to be recognized by LDEQ for our environmental education and outreach program."--Ann Wilson.

- On March 23, 2017, Jennifer Roberts and Bridget Tydor worked with service learners from The International High School of Washington D.C. This student group met at City Park where Jennifer and Bridget presented an overview of the City's drainage infrastructure, climate and flood risk. The students were introduced to green infrastructure and how it works to provide long-term benefits to the quality of water in our watershed. Jennifer and Bridget then led the students as they volunteered weeding and maintaining the swale and wetland on the Festival Grounds.

- On March 23, 2017, Bridget Tydor and Superintendent Joseph Becker participated as guest speakers on a Walk + Learn which included a visit to the Broad Street Rain Garden & SWBNO Drainage Pump Station #3. This event was open to the public and co-hosted by Propeller and the Greater New Orleans Water Collaborative. The walk took participants out into the field to see green infrastructure in action at NORA's Broad Street Rain Garden and included a tour of the Drainage Pump Station No. 3. Bridget Tydor discussed how the SWBNO has moved towards embracing green infrastructure while Joe Becker gave an overview of the drainage system and led the tour of the drainage pumping station.

- On March 24, 2017, Jennifer Roberts and Bridget Tydor met with student leaders and teachers at the Louisiana Environmental Education Commission and U.S. Green Building Council's Green Schools Youth Summit. Ninety Students in grades 5-12 came together to share ideas and projects that they have that can help schools to conserve resources, improved student health and wellness, and promote environmental and sustainability education.

- On April 7, 2017, the Sewerage and Water Board hosted Teachers and local leaders to the Carrollton Water Plant for the wrap up of *GNO World of Work: Water Week*, in partnership with GNO Inc. and the greater New Orleans Foundation. Participating teachers learned about employment opportunities at the Sewerage and Water Board from Mr. Vernon Martin, about student engagement and teaching and learning opportunities provided by SWB Environmental from Jennifer Roberts. Board Member and faculty member from Delgado Community College, Dr. Tamika Duplessis, offered a wonderful overview of the Water Workforce training and certification programs offered by Delgado Community College and partner Community Colleges across the region. General

Superintendent, Mr. Joe Becker provided insight into the inner workings of the Board, and a world class tour of the Water Plant facilities to all in attendance.

- On April 13, 2017, Senior City Planner Ms. Bridget Tydor provided Land Management Solution Framework (LAMA) training to employees who utilize this system to track inspections, review permit applications, and share data with city employees to ensure data sharing is consistent and complete.

- On April 19, 2017, SWBNO Chief of Environmental Affairs Ann Wilson spoke at the Louisiana Restaurant Association's breakfast meeting. Mrs. Wilson, along with Environmental Enforcement Technician II, Mr. Walter Berard discussed the importance of properly disposing of Fats Oils and Grease. (FOG) They also gave instructions to the food establishment owners and managers on how to complete the Board's Grease Trap/Interceptor Discharge Permit application. The Environmental team gave detailed instructions on to use Best Management Practices to reduce discharges to the sewer system, how to care for grease traps and cautioned against pouring water from boiled seafood down the city's storm drains. As of April 2017, the Environmental Affairs division has mailed 2,500 applications to restaurants, convenience stores, bakeries, delis and other establishments that serve food to permit their grease traps. The effort is in place to prevent sewer backups at city businesses.

- On April 19, 2017, Brad Klamer facilitated the Urban Waters Partnership Meeting this quarterly meeting. Participants included staff from federal (EPA, USGS,) State (LDAF), nonprofit (Lake Pontchartrain Basin Foundation, Groundwork, Gulf Restoration Network). The theme of this two hour meeting was Citizen Driven Small Scale Restoration and Habitat Projects. Speakers included: Adele Cardenas (EPA), Scott Eustis (Gulf Restoration Network), Shelley Stiaes (U.S. Fish and Wildlife Service), Blaise Pezold (LDAF), and Jennifer Roberts (SWBNO).

- On April 20, 2017, fourth grade students from the International School of Louisiana and their teachers visited the UNO Coastal Education and Research Facility to learn about watersheds and water science as part of the Youth Environmental Science Stewards (YESS) Program Field Trip. Jennifer Roberts led a Water Quality Lesson. Students also participated in Dip Netting for Biological Monitoring, learned about the importance of coastal wetlands using the Multiple Lines of Defense model, and learned to measure flow through Marquez Pass.

- On April 21, 2017, SWBNO Environmental Affairs staffers Anita Williams and Bridget Tydor along with Office of Sustainability's Samuel Gordon spent their Earth Day unclogging storm drains with Port of New Orleans staff. The partners removed debris and trash around the storm drains along Almonaster Boulevard.

- On April 21, 2017, Jennifer Roberts and Bridget Tydor helped to plan and implement the Xavier University Earth Day Celebration. Guests from Xavier Environmental Health and

Safety/Risk Management, the Water Collaborative of Greater New Orleans, and GNO, Inc. participated in an environmental careers panel discussion. Jennifer Roberts worked alongside SWBNO Board Member and Xavier University Vice President of Facilities Planning Marion Bracy and his staff and students to plant a tree on campus which will be the first of numerous trees to be installed over the coming month. The Environmental Team hosted a table to share information about opportunities to work at SWBNO, information about stormwater management and pretreatment with Xavier University students, faculty and staff.

- On April 22, 2017, SWBNO Environmental team members Bridget Tydor and Brad Klamer joined project partners Gaea Construction and Groundwork New Orleans in welcoming Aurora Gardens residents to the Aurora Rain Gardens at the corner of Westchester Street and Carlisle Court in Algiers. The site was developed as part of the SWB's Green Infrastructure 2016 Grant Program. The Aurora SPS was developed with two rain gardens, a rain chain, and flow-through planter. The site is now able to keep 4,900 gallons from entering the drainage system during a rain event by allowing rainwater to infiltrate into the ground and be soaked up by plant roots.

- On April 22, 2017, Anita Williams and Jennifer Roberts visited the Children's Museum for The Children's Museum Earth Day Extravaganza. SWBNO staff engaged children and their parents in a discovery of what is a watershed. The event also included guests from LSU Ag Center, Energy Wise, and many others.

- The Wyland Foundation sponsored Ambassador Brennan on the Headwaters of the Mississippi to the Delta tour. Ambassador Brennan arrived in New Orleans on April 24, 2017 where he spoke to the seventh grade class at Lusher Charter Students. The students learned the basics about Watersheds and Watershed health. Jennifer Roberts organized the visit and worked to plan follow up visits to ensure that these students received local watershed and pollution prevention facts.

- On April 24, 2017, Muhammad Yungai attended the Art and Water Panel discussion sponsored by the Antenna Gallery and Propeller. This community workshop and discussion explored how artists engage with questions around water, sea level rise, and environmental degradation, and how new mediums can expand perspectives on our interaction with the natural world.

- On April 25 and April 27, 2017, Environmental Affairs staff Anita Williams and Jennifer Roberts worked with Lusher Charter School's seventh grade students and their teachers to provide an overview of the local drainage system, our unique watershed and pollution prevention strategies. Students learned about point and non-point source pollution, best management practices, and why no one is allowed to dump anything, including crawfish boil water down a storm drain.

- On May 2, 2017, Executive Director Cedric S. Grant was joined by SWBNO Environmental Affairs Chief Ann Wilson and US Water Alliance CEO Radhika Fox to tape the opening video for the June 2017 One Water Summit Conference. From atop S&WB's new Green Roof, Grant explained how engineering advancements made New Orleans habitable. "We live in a bowl, built on a swamp. New Orleans is totally engineered or we wouldn't be here," he said. To add resilience to the second largest drainage system in the world, S&WB has constructed a number of green infrastructure projects around the city, including the Green Roof which holds 15 thousand gallons of rain per event.

  Radhika Fox discussed the concept of One Water and how the One Water Summit brings together hundreds of leaders from across the nation to network, share best practices, and take actionable ideas back home from the meeting. Fox expressed her gratitude for SWBNO partnering with the upcoming summit.

  Environmental Affairs Chief Ann Wilson talked about the Board's environmental outreach efforts to teach New Orleans residents of all ages how to live with water. Wilson appeared outside the Jazz Fest Grounds to talk about the important work SWBNO Environmental Affairs Department does to keep the city's festivals safe for our residents and visitors.

  She mentioned that her team has been to nearly every festival held in the city, but has never heard the music or even sampled the food because they're too busy making sure the sanitary sewer system is functioning properly.

  The video will be used to kick off the One Water Summit 2017 held in New Orleans June 27-29, 2017. It will appear in an edited version for SWBNO on www.SWBNO.org after its premier.

- On May 3, 2017, Environmental staffer Anita Williams supported Operations team members Conard James and General Superintendent Mr. Joe Becker offered Audubon Charter School's fourth graders a tour drainage pump station #6.

- From May 6 to May 9, 2017, Bridget Tydor and Brad Klamer attended the American Planning Association National Planning Conference in New York City and were part of the local and state delegation of over 50 representatives. The pair attended many sessions on water and planning and were able to offer feedback and ask questions concerning water management in New Orleans. Brad was part of the Water Working Group which is transitioning into the Water and Planning Network which kicked off at the conference. Bridget and Brad were also able to contribute to the early planning for next year's conference which will be held here in New Orleans. Bridget Tydor is an executive member of the Metro New Orleans Section of the APA LA. The Section hosted a tour of the Highline for Louisiana attendees. Bridget also met with other planners who reviewed recently adopted or updated comprehensive plans as a part of the Comprehensive Plan Standards Recognition Program Pilot. Communities were graded on their ability to

incorporate sustainability principals- creating livable, healthy communities in harmony with nature that are characterized by resilient economies, social equity, and strong regional ties.

- On May 8, 2017, Jennifer Roberts led Renew Charter McDonogh City Park Academy fifth and sixth grade science classes through Water Cycle lessons. Students began the lesson with a water cycle word search and then moved into the outdoor garden space on campus to take a Journey through the water cycle making a beaded bracelet as they take the journey of a rain drop through many spaces (cloud, ocean, glacier, etc.) and states of matter (gas, liquid, solid). Jennifer is working with this school with support from the EPA Urban Waters Small Grants program and in partnership with Lake Pontchartrain Basin Foundation. These same students will receive follow up instruction on stormwater best practices and pollution prevention on Friday May 12, 2017.

- On May 9, 2017, Jennifer Roberts attended the Louisiana Environmental Education Commissioners meeting in Baton Rouge at the Louisiana Department of Wildlife and Fisheries Office. At this meeting the Commission discussed Green Schools grants opportunities and recent awards, the February 2018 Environmental Education Symposium, the successes learned from the 2017 Green Schools Youth Summit (SWB represented and brought educational videos and resources for students), and upcoming changes to state science standards and curriculum. There will be an opportunity (August 2nd) for Jennifer Roberts, along with curriculum specialists across the state to recommend lessons and activities to be integrated into tier I science curriculum. Water Literacy may well be integrated into the new research and inquiry focused standards which are slated to be implemented in 2018.

- On May 11, 2017, Jennifer Roberts provided a tour of the City Park Festival Ground Wetland to the students participating in the LA Green Corps Workforce Training Program. The wetland was utilized to foster discussion and discuss lessons learned about maintenance schedules and what it takes to not only construct Green Infrastructure (GI) but also to keep it functioning properly. Students also discussed pollution prevention and the benefits of distributed GI across the City. Many of these students were interested in job opportunities in GI and at the Water Board

- On May 12, 2017, Jennifer Roberts and Anita Williams worked with McDonogh City Park Academy fifth and sixth graders to teach them about stormwater best management practices and pollution prevention.

- On May 13, 2017, Bridget Tydor represented SWBNO at the City of New Orleans Household Hazardous Waste Day. This is an annual event coordinated by the Department of Sanitation. This year 787 motorized vehicles and one bicycle visited the drop site on Elysian Fields. Bridget provided these residents with the following educational brochures: Think before You Flush, Stormwater 101, and F.O.G. for Residents, as well as Report Concert magnets.

- On May 13, 2017, SWBNO Environmental Affairs team spent Saturday teaching youngsters all about living with water. Jennifer Roberts and Brad Klamer used the Enviroscape to teach youngsters about stormwater best-management practices and pollution-prevention and invited children to make bracelets that reminded them of their Journey through the Water Cycle.

- On May 16 & 17, 2017, the Gulf of Mexico Climate and Resilience Communities of Practice Workshop was held in Covington, Louisiana. Jennifer Roberts was a guest speaker at this workshop, speaking on the Green Infrastructure Panel and discussing how Green Infrastructure is being utilized to improve resilience to climate change and other hazards.

- On May 18, 2017, Colorado Students toured New Orleans Water Management system. Jennifer Roberts and Bridget Tydor worked with the Port of New Orleans Environmental Team to host a group of visiting eighth grade students from Aurora, Colorado. The students had worked all year to research the New Orleans Water Management system and this project culminated with a visit to New Orleans and the surrounding region in mid-May. Bridget and Jennifer met the students and teachers at the Port of New Orleans and worked with Environmental Staff from the Port to give students an overview of our Watersheds. The group then visited Drainage Pump Station #3 where Superintendent Becker provided them with a tour of the facility and answered numerous and varied questions about the site and our system.

- On May 19, 2017, Jennifer Roberts worked with sixth grade science teacher, Ms. Lisa Swenson, to support student projects. Sixth grade students tested water quality in Bayou St. John monthly, over a period of 8 months and identified a water quality or habitat concern based on observations and data collections. Students then designed a mock solution for this problem and presented it to a panel of experts.

- On May 19, 2017 a Joint New Orleans/Jefferson Parish Stormwater/MS4 Task Force meeting was held at Room 405, Joseph S. Yenni Building, 1221 Elmwood Park Blvd., Jefferson, LA. The meeting was attended by Jeff Dauzat of the Louisiana Department of Environmental Quality and more than 20 representatives of the various co-permittees and community partners. Topics of conversation included Successful Earth Day Events, Pat Taylor Clean-up, Household Hazardous Waste Events in Orleans and Jefferson, Jefferson Parish's Poster-Essay Banquet, LDEQ ELP Award, LPBF Beach Sweep. Sewerage and Water Board's Bridget Tydor spoke about the National Planning Conference that she attended in New York and the planning for the New Orleans Based 2018 Conference. Additional topics of discussion included April's EPA Audit and future proposed SWMP changes. Scott Finney also updated the group on TMDL monitoring plans.

- On May 23, 2017, SWBNO partnered with the City of New Orleans Office of Resilience and Sustainability & the Trust for Public Land to support the unveiling of the new Climate-Smart Cities GIS Decision-Support Tool in a series of workshops attended by SWB leadership and staff. This Innovative Tool Tackles Four Major Climate Objectives: Cool, Connect, Absorb, & Protect. It allows users to identify areas of high-priority need based on a compilation of health, economic, and climate data to ensure multi-beneficial interventions are deployed.

- On May 23, 2017, Anita Williams and Jennifer Roberts worked in collaboration with Dinah Maygarden at the UNO Center for Education and Research Facility (CERF) to teach third graders from Arthur Ashe Charter Schools about our Watersheds and Pollution Prevention.

- On May 24, 2017, Brad Klamer participated in a workshop for the Treme/7th Ward Stormwater Management and Beautification Resident Project for the 1200 Block of Kerlerec St. The overall goal of the project is to create a more beautiful streetscape for the community and to mitigate local nuisance flooding by collecting a combined 1.25 inches of stormwater per rain event. The project components are to collaboratively design, construct, and maintain green infrastructure for the neighborhood. Brad Klamer facilitated the use of the Board's Adaptation Support Tool to help the residents visualize and plan the green infrastructure options for their properties.

- On May 24, 2017, Jennifer Roberts was guest speaker at the "Can Ya Dig it?" Community Forestry Workshop at the New Orleans City Park Botanical Gardens classroom. Jennifer discussed Water Management in New Orleans with the participants and shared an overview of the SWBNO drainage system and MS4 management with all in attendance.

- On May 24, 2017, the Arts Council of New Orleans launched By You Drainscapes a regional community initiative, with support from SWB and the Port of New Orleans, to create storm drain murals at five locations throughout New Orleans. The initiative's mission is to engage and coordinate citizens, artists, students, governmental agencies, businesses and community organizations in the Greater New Orleans Region to enhance public awareness, and water literacy through highly visible storm drain murals.

- On June 3, 2017, Jennifer Roberts participated in the Water Words Festival of Environmental Literacy at the Main Branch of the New Orleans Public Library. The event included using the Escape Stormwater Pollution Prevention Model. Jennifer Roberts read water themed books to young children in the Children's Resources Room. This event kicked off a summer long working on water reading and engagement series that Jennifer Roberts and Anita Williams will co-lead at all branches of the New Orleans Public Library.

- On June 5, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets, stickers, and outreach brochures to share with community members at the Keller Library.

- On June 8, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets, stickers, and outreach brochures to share with community members at the Nix Branch of the New Orleans Public Library.

- On June 8, 2017 The Sewerage and Water Board Environmental Staff led the Orleans Parish Stormwater/MS4 Task Force meeting, which was hosted at the New Orleans Mosquito, Rodent, and Termite Control Board. Bridget Tydor led the group through the exploration of the Trust for Public Land Climate Smart Cities planning tool. In addition, Scott Finney led the group discussed the Total Maximum Daily Load program, Stormwater monitoring and sampling, the upcoming Concrete and Construction Best Practices Training to be held June 13, 2017 and the upcoming Sewer Science Teacher Training Program.

- On June 12, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the Latter Branch of the New Orleans Public Library. SWBNO Environmental Affair staffers discussed where the rain goes and how it has to either soak in to the soil and plants or get pumped into the system through the drains, pipes, pumps and canals.

- On June 13, 2017, Anita Williams and Bridget Tydor met with 16 children at the mid-City Branch of the Library. They brought water themed books, coloring sheets and stickers to share with young community members.

- On June 13, 2017, the Environmental Affairs Department is engaged in an ongoing Public Education campaign for the purpose of keeping the City of New Orleans clean and environmentally friendly. The campaign is focused on certain business categories, which have the potential to discharge pollutants to our storm drain system. Concrete/cement companies fall within one of these categories and as such the Environmental team invited representatives of various concrete companies to training to discuss Best Management Practices (BMP's) in the industry. Stormwater Manager, Mr. Scott Finney, in collaboration with Jefferson Parish Stormwater Manager Mr. Sami Khalil delivered a Concrete Company/Concrete Hauler training. This training was attended by more than 30 individuals.

- On June 13, 2017, the Southeast Louisiana Clean Fuel Partnership recognized SWBNO as one of the 2016 Clean Fleet Leaders at the Regional Planning Commission meeting. Ms. Valerie Rivers accepted a Clean Fleet Award on behalf of SWBNO. This year's leaders combined efforts set two new regional records by reducing traditional fuel consumption over 3.5 million gasoline gallons equivalent (GGEs) and preventing over

22,000 tons of greenhouse gas emissions, reducing our dependence on foreign oil and improving our overall air quality

- On June 14, 2017, Brad Klamer met with the Tulane University Ecology and Society course at the edge of the London Canal to discuss the SWBNO drainage system and the integrated approach to stormwater management. Brad gave an overview of the drainage pumping system and explained the green infrastructure program. He was able to answer questions about the recent heavy rains in the area and how SWBNO plans for the uncertainties of climate change.

- On June 14, 2017, Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the Alvar Branch of the New Orleans Public Library. While the rains kept most library-goers at bay, one young boy, Elliot and his grandma visited and chose to discuss rain and water in New Orleans rather than read stories. Elliot and his family just moved to the City of New Orleans from Washington D.C. and he was very interested in learning about our system of pump stations, pipes and canals. Elliot had many questions about the Wood Screw Pump and the animals that live in Lake Pontchartrain. Eliot pledged not to litter so that he could make sure he does his best to keep the Lake clean, and he was given a rain rangers sticker as a celebration of that pledge.

- On June 16, 2017, Anita Williams and Jennifer Roberts brought water themed books, coloring sheets and stickers to share with community members at the East New Orleans Branch of the New Orleans Public Library. Outreach at the library will continue through the month of July.

- On June 20-23, 2017, Jennifer Roberts worked as an expert instructor for the Mississippi River Delta Institute, a three-day professional development workshop for third through eighth grade teachers. Teachers from public schools in Louisiana and Minnesota convened to learn how to engage their students in the STEM fields through hands-on, inquiry-based investigations at local watersheds. The 22 educator-participants came from eleven schools in Minnesota and Louisiana, from area non-profits, as well as from the Sewerage and Water Board. Ms. Anita Williams, Environmental Technician, participated in this professional development opportunity.

- On June 22, 2017, SWBNO Deputy Director-Chief Financial Officer Bob Miller along with Stormwater-MS4 Manager Scott Finney participated in a workshop entitled "Opportunities for Contractors in Stormwater Management." This workshop hosted by LCI Workman's Comp, Urban Conservancy, and Stay Local and was held at the New Orleans Mosquito Rodent and Termite Control Building. The day started with an introduction by Urban Conservancy's Executive Director Ms. Dana Eness, who then introduced Bob Miller who talked to the group about "Why Stormwater Management is here to Stay". Scott Finney, along with City of New Orleans staff Danica Adams, Tyler Antrup and Julia Tweeter discussed "What Contractors Need to Know about Stormwater

Management Regulations." Additional topics discussed were "Affordable Green Materials and Implementation Techniques for Residential Construction that Homeowners Want" and" Opportunities Available: Stormwater Management Projects, Classes, and Continuing Education." The workshop was a great success with 39 participants in attendance.

- On June 26, 2017, the Urban Waters Partnership held a workshop at the Tulane University Tidewater Building. The meeting was attended by local and regional partners including representatives from numerous local nonprofits, EPA Region 6, Region 2 (Gulf of Mexico Program) and Urban Waters Partner group members from San Antonio. A topic of discussion included but was not limited to:
    - A presentation by EPA Scientist Blake Schaeffer on Technology advancing Water Quality goals
    - MS4 Watershed Permits and use of LID and green infrastructure
    - Flooding responses
    - Sb132 – Recently passed and could affect the area to the north of the Lake
    - Local and National Implications for Executive Order 13690 on Floodplain Management and the Federal Flood Risk Management Standard (FFRMS)
    - Getting community members to UWs meetings and getting their input into future projects
    - Developing local "collective impact"
    - Developing and implementing a local UWs vision
    - The National Urban Waters Partnership has been nominated for a Samuel J. Heyman Service to America Medal (Sammie) Award. Brad Klamer is working with local partners to ensure that the New Orleans Pontchartrain Partnership is well represented.

- On June 27, 2017, SWBNO and the US Water Alliance co-sponsored the One Water Summit in New Orleans. Field trips for participants were organized by collaborative teams in the City and one of the stops during the Tuesday afternoon field trip was the SWBNO St. Joseph Street Office, where Brad Klamer led a tour of the newly completed Green Roof. Participants learned about the design of the roof and the volume of water it can intercept during rain events.

- On June 29, 2017, Senior City Planner, Jennifer Roberts worked with Dinah Maygarden of the University of New Orleans and Thomas Gresham of the Louisiana Environmental Education Commission to lead a Watershed Workshop for educators. This workshop series was funded through a NOAA-BWET grant awarded to the University of New Orleans. The workshop was held in Baton Rouge at the Louisiana Department of Wildlife and Fisheries offices on Quail Drive and served 19 teachers. While teachers came from 4 parishes including Orleans, Jefferson, East Baton Rouge, and Lafayette the focal watershed was the Pontchartrain Basin. The day's lessons included Water Quality Monitoring, and introduction to Green Infrastructure, Entering Data into the GLOBE system, and Watershed Mapping. Dawson's Creek which runs along Quail Drive and ultimately meets Lake Pontchartrain through Pass Manchac served as our study site.

- On July 13, 2017 from 2-4pm Scott Finney and Jennifer Roberts attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The meeting was hosted by the Flood Protection Authority East (also known as the Orleans Levee District), a co-permittee in the EPA issued Municipal Separate Storm Sewer System (MS4) Permit. Presentations were made by Ryan Foster (FLA-East), Dale Thayer (St. Bernard Parish) and Scott Finney (SWBNO). Field trips were postponed due to weather conditions, however, points of discussion including NPDES and TMDL monitoring, GIS tools to track sewer overflows, outreach, the Lakeshore Drive erosion control project, and St. Bernard Parish planning and policy updates. LDEQ was not represented at the meeting.

- On August 10, 2017, the Orleans Parish water quality/MS4 Task force meeting was held Thursday, August 10, 2017 at the New Orleans Mosquito Termite and Rodent Control Board. This meeting was attended by more than 30 individuals, LDEQ was not represented at the meeting. The meeting included presentations by: 1) Travis Richards of Eustis Engineering who presented an overview of the SWB/Eustis Soil Study; and 2) Roelof Stuurman of Deltares who gave a presentation on the National Disaster Resilience funded Deltares Groundwater Monitoring and Modeling efforts. These two presentations elicited so much conversation, that the SWBNO employee presentations were postponed until the September 2017 meeting.

- On September 14, 2017 Bridget Tydor, Edward Schneider, and Scott Finney attended the September MS4/OPWQTF Meeting held at the New Orleans Mosquito Control Board Training Room. Scott Finney presented information on tannins and lignins, which produce a sheen on top of puddles or rust-colored stain on sidewalks and roads. Tannins and lignins occur naturally as a result of soil decomposition. Environmental Affairs receives complaints annually as a reaction to the presence of tannins and lignins. LDEQ was not represented at the meeting. Bridget Tydor presented a new Green Infrastructure map made available with help from SWB GIS.

- September 18-21, 2017, Anita Williams, Edward Schneider, and Scott Finney attended the US Environmental Protection Agency (EPA) Region 6 Stormwater Conference in San Antonio, Texas. Attendees received education credits toward their Louisiana Wastewater Treatment, Wastewater Collection, and Water Treatment, Distribution, and Production Operator's certifications from the Department of Health and Hospitals and the EnviroCert International Inc. Certified Professional in Municipal Stormwater Management license.

- On October 12, 2017, Muhammad Yungai attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The MS4 meeting coincided with an EPA Urban Waters meeting. Attendees represented SWBNO, Lake Ponchartrain Basin Foundation (LPBF), LDEQ, the Greater New Orleans Foundation (GNOF), the Louisiana Department of Transportation and Development (LA DOTD), the US Forest Service (USFS), the US Fish and Wildlife Service (USFWS), the EPA, the US Geological Society (USGS), the Water Collaborative of Greater New Orleans, the National Resources Conservation

Service (NRCS), the City of New Orleans, and the Louisiana Water Economy Network. LDEQ was not present at the meeting. TMDLs for fecal coliform and dissolved oxygen were discussed, as were the NPDES sites within the Parish. Muhammad discussed the industrial users under inspection and how the Board is one or two inspections from completing the cycle.

- On November 16, 2017, Scott Finney attended the Orleans Parish Stormwater/MS4 Task Force Meeting. Attendees represented SWBNO, Jefferson Parish, the City of New Orleans, the Port of New Orleans, and Dionne Magness of LDEQ. The meeting was hosted by the Louisiana Department of Transportation and Development (DOTD), a co-permittee in the EPA issued Municipal Separate Storm Sewer Systems (MS4) Permit. The meeting was located at the Bridge City Headquarters Building, 1440 Hwy 90 Bridge City, LA 70094. Scott Boyle of LA DOTD presented on drain cleaning activities. Scott Finney discussed TMDLs and changes to the new MS4 permits from the State with Jefferson Parish, an indicator of what Orleans Parish should expect their next permit to be like. Under the new permit, Jefferson Parish must sample for chemical oxygen demand (COD) in the canal systems.

- On December 14, 2017, Muhammad Yungai, Anita Williams, Edward Schneider, and Carson Gorecki attended the Orleans Parish Stormwater/MS4 Task Force Meeting. The meeting was hosted by the Sewerage & Water Board of New Orleans (SWBNO) and held at the New Orleans Mosquito Termite and Rodent Control Board. There were ten attendees representing DOTD, the Port of New Orleans, Jefferson Parish, New Orleans Sanitation Department, LDEQ, and SWBNO. Dionne Magness represented LDEQ. Topics of discussion were TMDLs, the problems caused by Fats, Oils, and Grease (FOG), icy road treatments, future outreach, and site-specific training. Edward Schneider presented on SWBNO good housekeeping practices for spill prevention, control, and countermeasures (SPCC). Industrial users requiring inspections are down from an original high of 300 to closer to 50. Inspection sites for DO and fecal coliform are going to be increased in 2018. FC is expected to be decreased as improvements to the sewage system come on line. The upcoming deadlines for the MS4 permit renewal in 2018 were also discussed.

Section VIII
SWBNO/City Coordination

THIRD MODIFIED CONSENT DECREE SECTION XIX PARAGRAPH 59 SEWERAGE & WATER BOARD OF NEW ORLEANS/ CITY OF NEW ORLEANS COORDINATION

Paragraph 59. This paragraph requires the Board to summarize the Board and City's coordination efforts and work progress, including a summary of significant coordination efforts undertaken during the reporting period and a chart depicting those efforts. The chart shall identify each project (contract) on which the Board and City are coordinating or at the time of submitting the report, reasonably expect to coordinate, the estimated budget for each entity's share of the work (including the expenditure of federal funding that the Board and City reasonably expect to make at the time of submitting the report), the current status of that coordinated work, and the estimated and actual date for design completion, contract advertising, notice to proceed, and construction completion. With respect to the summaries and information reported under this paragraph 59, all parties understand that the amounts and dates of anticipated federal funding expenditures regularly change, that the reported information reflects what is anticipated at the time the Board submits it, and that the information is likely to change between each report.

Work Accomplished

- On December 10, 2015, the City of New Orleans and the Sewerage and Water Board of New Orleans reached a settlement with Federal Emergency Management Agency (FEMA) for street and subsurface infrastructure repairs related to Hurricane Katrina in the total amount of approximately $2.4 Billion. This will allow for additional infrastructure projects that will be coordinated through the combined efforts of DPW and the Board.

- The City of New Orleans and the Sewerage and Water Board jointly developed an aggressive schedule for the expenditure of the $2.4 Billion to FEMA for their review and approval on March 30, 2016. This schedule has already been implemented and includes ongoing design for about 30 paving projects that will allow for significant construction in 2017, as well as the commencement of design on over 50 more projects that will allow for increased construction in 2018 and 2019 as we ramp up our efforts to perform repairs on assets damaged as a result of Hurricane Katrina.

- The City of New Orleans and Sewerage and Water Board of New Orleans continue to re-evaluate the design and construction schedules so that they align and meet imposed deadlines set forth in the 3rd Modified Consent Decree.

*Clarification Due to intense city wide inclement weather an estimated volume could not be determined.

KEY TO MEASURES TAKEN IN RESPONSE TO UNAUTHORIZED DISCHARGES

CAUSE CODES:

1 - BLOCKAGES
- A GREASE
- B ROOTS
- C DEBRIS
- D UNSPECIFIED
- E SAND
- F CEMENT

2 - STRUCTURAL DAMAGE TO PIPE
- A COLLAPSE
- B BREAK

3 - PUMP STATION PROBLEM
- A MECHANICAL
- B ELECTRICAL
- C VANDALISM

4 - INTENSE RAINFALL
- A INFLOW
- B SEWERAGE SYSTEM SURCHAARGED

CONTROL MEASURE CODES:

1- CONTROL MEASURES
- A AREA SUBMERGED
- B CLEANED, DISINFECTED, & DEODORIZED AREA
- C DILUTED SEWERAGE WITH CLEAN WATER
- D OPEN HYDRANT & FLUSHED DRAIN LINES
- E UNSPECIFIED

2 - SPILL CONTAINED
- A CONTAINED IN PIPE
- B VACUUM TRUCK
- C CONTAINED IN CANAL
- D CONTAINED IN DRAIN CATCH BASIN
- E CONTAINMENT NOT POSSIBLE
- F NOT FEASIBLE (LOW VOLUME)

3 - NO DISCHARGE
- A PUMPED SEWER TO SEWER
- B PUMPED DRAIN TO SEWER
- C RE-ROUTED SEWAGE FLOW

4 - OPERATE SEWER STATION
- A PUT STATION ON BYPASS TO RELIEVE PRESSURE IN THE GRAVITY SYSTEM
- B TURNED STATION OFF TO STOP FLOW
- C PUMPED DOWN SEWER SYSTEM

5 - OPERATE DRAINAGE SYSTEM
- A PUMPED DOWN DRAINAGE SYSTEM
- B STOP PUMPING DRAINAGE CANAL

ELIMINATE OVERLFOWS:

1 - CLEAR THE BLOCKAGE
- A MECHANICAL CLEANING
- B HYDRAULIC CLEANING

2 - REPAIR THE BLOCKAGE
- A REPAIR MAIN
- B REPLACE MAIN

3 - RETURNED STATION TO SERVICE
- A REPAIRED MECHANICAL PROBLEM
- B REPAIRED ELECTRICAL PROBLEM

4 - RAINFALL ENDED
- A INFLOW SUBSIDED
- B SEWAGE SYSTEM RETURNED TO NORMAL CONDITION

PREVENT RECURRENCE:

1 - REFER AD FOR FOLLOW UP
- A INTERNAL ENVIRONMENTAL AFFAIRS DEPARTMENT
- B GRAVITY
- C PRESSURE
- D SEWAGE PUMPING

2 - INCREASE INSPECTION FREQUENCY
- A MONTHLY
- B QUARTERLY
- C SEMI-ANNUALLY
- D AS NEEDED

3 - INCREASE PREVENTIVE MAINTENANCE
- A WEEKLY
- B MONTHLY
- C QUARTERLY
- D AS NEEDED

4 - LOCATE INFLOW SOURCE
- A IDENTIFIED AND ELIMINATED
- B RMAP
