Demolition Projects

Buildings, and or houses to be demolished shall conform within accordance of the Sewerage and Water Board of New Orleans Plumbing Code, and the rules and regulations herein provided;

Underground sewer mains, and underground water service supply mains shall be excavated and properly capped (as prescribed in 10.2.4 S&WB Plumbing Code), inside the property line, and limited to a distance of 5 feet of said property line.

The property owner’s responsibility (as prescribed in 2.2.4) is to hire a licensed master plumber to file a plumbing permit with Sewerage and Water Board of New Orleans to record changes to the property (as prescribed in 2.2.1) as in discontinuance of the sewer, and or water supply to said property.

Inspections are required by the plumbing department to properly document the sewer, and or water services that are excavated and capped before being covered (as prescribed in 3.2.7).

Compliance to these conditions are required to protect the health and safety of the public, and meet the expectations of the consent decree for the Federal Department of Justice, paragraph 2.7.1, states whoever violates any of the rules and regulations established by the Board and duly promulgated in the official journal of the City shall be fined not more than one thousand dollars for each offense or imprisoned not more than thirty days, or both.

James J. Arnold
Utility Services Administrator
